

## SCHOLARSHIP WINNER INDICTED FOR BOMBING

Anthony di Giovanni, Whom  
Jane Addams Befriended,  
Held in Chicago.

By the Associated Press.

CHICAGO, Feb. 6.—Anthony Di Giovanni, who has been befriended by Jane Addams, founder of Hull House, and is winner of a scholarship to the University of Chicago, was one of four men indicted here yesterday for bombing the home of

Kurt Kreber, real estate dealer. Di Giovanni's father, said to have been an Italian nobleman, was killed by blackmailers shortly after coming to Chicago, police learned. and Anthony was sent to a military academy and while there became acquainted with Miss Addams at her settlement house. It was through her interest that he obtained the Potter Palmer scholarship to the university.

Others indicted with Giovanni are Walter Kiley, vice president of a construction bond company, James (Blackie) Giano, a drug clerk, and Tony Vinuti, a gangster. Police said Kreber formerly was in business with Kiley and that a quarrel ended their affiliation.

Di Giovanni and Giano are said by police to have confessed.

## CONTESTING DAUGHTER GETS \$7,000,000 SHARE

Settlement Made in Suit Over  
Margaret Huntington Smith  
McCarthy Will.

By the Associated Press.

GREENWICH, Conn., Feb. 6.—Settlement of the fight over admission to probate of the will of Mrs. Margaret Huntington Smith McCarthy, heiress to Standard Oil millions, was announced in Probate Court today by Homer S. Cummings, judge of probate. Under the settlement, Miss Peggy Gowen, daughter of Mrs. McCarthy by a former marriage, will receive 30 1/2 per cent of the residuary estate, amounting to more than \$7,000,000, all of which, under the will, would have gone to Dr. James F. McCarthy, husband of Mrs. McCarthy. The will left Miss Gowen \$200,000.

Western Reserve University, which, with Miss Gowen, had contested the will, receives 14 1/2 per cent. The university was not made a beneficiary in the will—the fifth made by Mrs. McCarthy, although it was to have shared in the estate under a former will.

The remaining 55 per cent of the residuary estate is retained by Dr. McCarthy. After counsel for Miss Gowen and counsel for Western Reserve University had assented to the settlement, the judge announced that he approved the will and ordered it placed on file.

Before announcing the settlement Cummings made a long statement to the court in which he said that the allegations made by the contestants regarding Mrs. McCarthy's condition when she signed the will last Jan. 9 could have been refuted by competent testimony on behalf of the executors. "As a result of considerable discussion," he said, "and to avoid recriminations we have arrived at a settlement. This settlement is in the form of a written document which will be filed in this court. It provides for the withdrawal of all opposition to probate of this will. It provides that all concerned will unite in requesting your honor to probate and that the will be executed in the ordinary, orderly way."

Cummings announced that Dr. McCarthy had executed all documents necessary to insure inclusion

in the estate of a fund which he had held in joint agreement with his wife.

## SEEKS ENDURANCE RECORD

By the Associated Press.

ROOSEVELT FIELD, L. I., Feb. 6.—Martin Jensen of Los Angeles took off at 9:04:05 a. m. today in his monoplane, "The Green Flash," in an attempt to create a new world's solo endurance flight record. He hopes to remain in the air 40 hours and thus beat the old record of 35 hours and 25 minutes set by the late Lieut. Royal Thomas. Jensen's plane carried 375 gallons of automobile gasoline instead of the

usual aircraft gasoline. He failed in a similar effort Jan. 30.

### SPEED IN WIDENING NATURAL BRIDGE AVENUE IS URGED

Delegation of 100 North Side Business Men Gather at City Hall to Emphasize Need.

MAYOR PROMISES  
TO DO ALL HE CAN

Director Brooks Says City's Hands Have Been Tied Because of Lack of a Revolving Fund.

Nearly 100 North St. Louis business men and property owners gathered today in the Board of Public Service chamber, to urge city officials to hasten the widening of Natural Bridge avenue, to be made the northwest extension of Twelfth boulevard. The widening from the present width of 60 feet to 100 feet, is to be made from Twenty-first and Palm streets to the city limits.

The delegation, headed by W. H. Wedemeyer said that improvements on Natural Bridge were at a standstill. Building construction on that part of the street to be removed by the widening is no longer possible, and if buildings are placed back to the future line, they must remain for an indefinite time out of the present line of business.

Otto Koenig, president of the Natural Bridge Bank at Newstead avenue, told of plans for a \$200,000 building improvement. William Schumacher, owner of 150 feet wide Shreve avenue, also told of desiring to build, but being unable to proceed with his plan.

Condition Unfair, Mayor Says. Mayor Miller, who was present, said the condition was unfair to the property owners and that he would do everything in his power through the Board of Public Service and the law department, to make a start on the work.

Street Director Brooks said that the city's hands apparently were tied by lack of a revolving fund, such as was used to expedite the Olive street widening. The \$2,500,000 revolving fund was paid out on the Olive street work, and will come back to the city only as the special assessments for that work are paid by property owners. However, Brooks has a plan to take a revolving fund from the bond issue appropriation for street widening and openings, if this can be worked out legally.

City Counselor Muench said the Law Department would co-operate. He reminded the complainants that North St. Louis property owners delayed the work of condemnation by filing suits. Delay also results, he said, from the system of 15-day commissions, named by the Circuit Court and not responsible to the city administration, who meet at their convenience.

Agree on Damages. The commissioners on the Natural Bridge widening, who are E. A. Bokern, Clifford Allen and George F. A. Brueggeman, have arrived at a gross award of \$1,194,240 damages. The benefits assessed are \$1,012,578.50. Benefits assessed back against the damaged property amount to \$282,948.50. The difference between the last amount and the gross damages, of \$889,710, is the amount which the city needs, as a revolving fund, to be paid into court for meeting property owners' claims, after which the work could proceed.

The district to be assessed for the benefit extends east to Broadway and west to the city limits, between Bremen avenue and Penrose street on the north and Montgomery street and Labadie avenue on the south. The lowest assessment is 50 cents a front foot, at the east end of the district. The highest is on corner property on Grand, Kingshighway and Union boulevards, \$50 a front foot. On Goodfellow the assessment is \$49 a front foot.

It is planned to do the work on Natural Bridge simultaneously with that on High, Thirteenth and Fifteenth streets, other links in the Twelfth boulevard extension. Assessment of benefits and damages on those sections is still to be made.

Widening of Sheridan avenue, to connect Cass avenue and Page boulevard, will involve a gross award of \$152,574.25, commissioners have determined. The improvement is to extend from Jefferson and Cass avenues to the Page-Easton intersection.

### TWO MEN FILE AS CANDIDATES FOR G. O. P. ALDERMANIC RACE

William Runge, City Building Inspector, and Alexander Bourgeois, Retired Grocer, Declare.

Two candidates for nomination for Aldermen on the Republican ticket today filed declarations of candidacy.

William Runge, a City Building Inspector, of 2741A Laclede avenue, became a candidate for Alderman from Seventeenth Ward, opposing Thomas Watts, incumbent. Both have been active in regular party ranks.

Alexander Bourgeois, a retired grocer, of 782A South Second street, seeks the nomination in the Seventh Ward. He will be opposed by the incumbent, Henry Wander.

## OFFICERS SEIZE MAN AFTER 9-HOUR SIEGE

Gas Bomb Ineffective, but  
Columbia, (Ill.) Cook Is  
Taken in Barricaded Home.

After barricading himself for nine hours in his home at Columbia, Ill., armed with three shotguns and an ax, Adam Daab, 40 years old, a cook, was overpowered last midnight by officers who used a tear gas bomb obtained from the St. Louis Police Department.

Following a report that Daab, who lives alone, had appeared in his yard with a shotgun and was shouting threats at persons passing his home, Chief of Police Kern sought to arrest him. Daab retreated into his house and barricaded the doors. When Chief Kern called on him to surrender, Daab shouted threats and appeared at the windows with a shotgun.

Kern, after several hours of trying to persuade Daab to come out, notified Sheriff O. J. Maul of Monroe County at Waterloo. Maul drove to Columbia to help try to induce Daab to lay down his weapons, but in vain, whereupon Maul and State's Attorney Harry Jackson motored to St. Louis and obtained two tear gas bombs from the Police Department.

Returning to Columbia at midnight, Maul tossed one of the bombs through a window of Daab's home, then broke down the door with an ax. Kern, Maul and Jackson rushed at Daab, who was seated on a bed with three shotguns, an ax, a hatchet and a poker beside him. The gas bombs, which appeared to be ineffective, according to Sheriff Maul, had no effect on Daab, who, however, offered no resistance. He was taken to jail at Waterloo for observation.

**Army Plane Wrecked; Two Hurt.**  
By the Associated Press.  
NORFOLK, Va., Feb. 6.—Capt. Willis Hale and Walter Reed, attached to the office of the chief of the army air corps at Washington, made a forced landing today on the grounds of the Hampton Institute at Hampton shortly after leaving Langley Field for Pope Field, N. C. The plane was wrecked but neither flyer was hurt. The men were en route to the Pacific Coast.

## Announcing a HEALTHIZER Demonstration

YOU'D never dream that so delightful a feeling of fitness and vigor would follow a few minutes of exercise and massage with the Master Healthizer—unless you've tried it.

We now present you the opportunity to see how the Master Healthizer re-invigorates and stimulates you, as a result of its health-building applications. Come in to our demonstration room, where, in private, you can enjoy a trial of the Master Healthizer that may be a revelation to you. A woman representative will be in attendance to ex-

plain how and why the use of the Healthizer brings physical fitness.

By toning all muscles with stimulating exercise, it helps to keep the body supple, graceful and slim. It reduces surplus of flabby flesh—fights fat in a natural way by eliminating one great underlying cause, insufficient exercise. Along with a proper diet, it provides a safe, safe and pleasant way to weight reduction.

Stop in while the Master representative is here. An investigation of the Healthizer will take but a few minutes, and may be worth much to you in future health and happiness.

## \$2,350,000 LEFT TO CHARITIES BY OGDEN MILLS SR.

Of This Amount, Children  
 of Financier Are Request-  
 ed to Give \$1,300,000  
 From Their Shares.

Special to the Post-Dispatch.

POUGHKEEPSIE, N. Y., Feb. 6.—Ogden Mills, financier and philanthropist, left \$2,350,000 to charities and public institutions by the terms of his will admitted to probate here yesterday. Life interest in the residue of his estate, estimated at close to \$50,000,000, passed to his son, Ogden L. Mills, under-secretary of the Treasury, and his two daughters, Beatrice, Countess of Granard of London and Mrs. Henry Carnegie Phillips of Palm Beach, Fla.

Mills' children will make other public bequests of \$1,200,000, it was learned from attorneys for the estate, following directions which he desired but which he did not incorporate in his will. The Metropolitan Museum of Art which receives \$100,000, will get an additional \$100,000, according to this request. The museum also receives two paintings by Van Dyke and other well known paintings and a collection of bronze statues in Mills' Paris residence.

The Home for Incurables will receive \$500,000 in the final distribution of the estate; the American Museum of Natural History, \$500,000; the Mills Memorial Hospital at San Mateo, Cal., \$200,000; the Grace Cathedral Corporation of San Francisco, \$250,000, less gifts made during Mills' life and the New York Zoological Society and Phillips Exeter Academy, \$50,000 each.

To his son, Ogden Mills left his city residence at Fifth avenue and Sixty-ninth street, property immediately adjoining the residence at No. 4 East Sixty-ninth street and the property at 109-111 West Fifty-second street. He also receives the estate at Staatsburg, under the terms of the will of his mother, the late Ruth Livingston Mills, who held a life interest in the estate. To his daughter, Beatrice, Mills left all his shares in the company which owns his Paris residence.

To his employees Mills left a total of \$175,000.

While attorneys for the estate would not estimate the amount of the Mills fortune, he is known to

have inherited close to \$20,000,000 from his father, Darius Ogden Mills. Mills was actively interested in his father's enterprises during his life, and it is probable that the inheritance more than doubled during his career.

The executors of the estate are the three children. They are to hold the residue in trust for themselves and for their own benefit in equal shares. At the death of Ogden L. Mills, his share passes to his children, according to the provisions of his will. A similar provision is made for the children of the two daughters.

### EXCEPTIONS TO SEVENTH STREET WIDENING AWARDS OVERRULED

That of Harold R. Green Still Pending With Possibility of Being Sustained.

All exceptions but one on awards in the condemnation suit for the widening of Seventh street from Market street to Spruce street, were overruled by Circuit Judge Calhoun yesterday. The one still pending is that of Harold Rumsay Green, who contends that the \$26,000 allowed him for property at

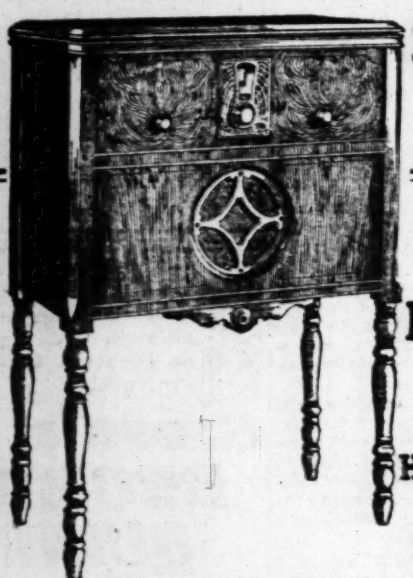

the southwest corner of Seventh and Market is inadequate. Assistant City Counselor Seward McKittrick, who is handling the matter for the city, said that the city and Green had been unable to reach an agreement. It was stated that unless a compromise was reached the Green exception would be sustained. Green asks for approximately \$36,000.

The ordinance for the widening project was enacted May 4, 1923. Damages totaling about \$300,000, with benefits about one-half of that amount, were assessed by the commissioners in the suit.

### ADJUSTING FIRE LOSSES:

**A Fine Record of Fair Dealing**

THE last licking flame has been quenched. The firemen have returned to their stations. Ashes—smoke—stains—water-soaked contents—then the adjuster.

All day long and every day the adjuster meets people who have sustained losses against which they were insured. Whether greeted cordially or gruffly, the adjuster must handle his problem with tact and fairness. The reputation of his company goes with him into every case.

During 1927 nearly a million reports of losses were filed with the Stock Fire Insurance companies. Ninety-nine and nine tenths percent of the claims arising from these loss reports were adjusted without resort to legal action; a splendid tribute to the fairness of the contracting parties—the public and the fire insurance companies.

It is the constant effort of the Stock Fire Insurance companies to employ only honest and competent adjusters, to the end that legitimate claims may be settled fairly in conformity with the rights of the interested parties.

The adjuster is appraised by his ability to arrive at the proper amount of loss and to avoid claims originating from that enemy to society—the arsonist.

The public confidence in Stock Fire Insurance is in a large measure due to the fair dealing of its adjusters.

THE NATIONAL BOARD OF FIRE UNDERWRITERS

### 5,000,000 AUTOS TO BE PRODUCED IN U. S. THIS YEAR

G. W. Graham, Willys-Overland Officer, Predicts Output of 400,000 More Cars Than in 1928.

18,754 AT SHOW ON SECOND DAY

Million Machines to Be Exported—Future Business Lies in South America, Australia and Asia.

Production of 5,000,000 cars and trucks in this country this year, or 400,000 odd more than in 1928, was predicted by George M. Graham, vice president of Willys-Overland, Inc., on his arrival in St. Louis yesterday to attend the automobile show. This total, Graham said, would include around 1,000,000 cars for export.

"Twenty years ago," Graham continued, "only 67,000 cars were produced in this country in a year. At wholesale prices, these were worth \$137,000,000. In 1928 this country exported twelve and a half times as many as the total yearly production in 1908.

"The United States sold 800,000 cars abroad last year. Our Willys-Overland share of that total was 45,000. In 1928, we expect to export 70,000 out of a million total. Incidentally, we have 2000 Willys-Overland dealers outside of the United States in addition to 6000 in this country."

Graham said that the future of the automotive export business should lie in the agricultural countries, such as Argentina, Brazil and other South American nations, Australia and Asia. In time, he thought, the manufacturing nations in Europe would be pretty well able to care for their own transportation needs.

Attendance at the auto show yesterday totaled 18,754 according to Robert E. Lee, manager of the exposition. Sales thus far have been more than twice as large as in the first two days of last year's show, he said.

There was general comment by show visitors on the way in which custom built effects have been obtained on almost every model on display. There is not a line that has not outstanding features of design and not one has a model that can be criticized on the score of stylishness or finish.

Attractive color combinations are a feature of the Hudson-Essex exhibit among the aristocracy of American motor cars, on the third floor of the show. This display occupies 4350 square feet of floor space, the largest area devoted to any independent exhibitor. Maroons and browns, soft grey and beige, greens and tans—dignified color schemes for all their verve and style. Every equipped model in the Hudson-Essex display is a stock car.

An excellent example of design that carefully considers both style and color is a Reo coupe done in a deep wine color, with curved louvers line that is carried back over the running board and in a graceful bend over the rear fenders. The Reo "Mate" has an interesting double louver effect.

Hupmobile models on display are the first to have the new steel guards for tires carried in fender wells. A Buick body on Hup eight chassis has all its interior metal work in antique bronze. Another Hup, this one a cabriolet, is in Mesalite green with blue trim and yellow lining—a very pretty car. A striking Hup is a roadster in Princeton orange. These cars are in interesting contrast with a 1910 Hup, with old-fashioned survey style seats and top.

Horizontal louvers that extend almost the full length of the hood are a feature of a medium priced Peerless roadster that attracts much attention. This car is in canary yellow with black moulding striped in white. It has the Don Lee type of folding windshield. The compartment is in black leather, while the wheels are in yellow.

Symphony in Gray. A lithic, but powerful sport phaeton is a Packard eight with the folding windshield that gives this type of car such a dashing effect. The model is a symphony in gray, the only touches of other colors being blue on the moulding and a hair stripe in gold. Tires, of course, are carried in fender wells, while there is a folding windshield for the tonneau seat. The louvers are of the door type—four on each side of the hood. Upholstery is of soft leather in gray to match the body color.

Another sport roadster of marked style is a Buick in black with gold striping and Don Lee windshield, tires in fender wells and wood bows for the top, in natural wood finish. Leather upholstery is in a light tan, as are the wire wheels. The cowl lines are especially graceful. The new Buick four-passenger coupe, with large package compartment, is being shown.

Pierce-Arrow is showing only its new straight eight models on two wheelbases—135-inch and 143-inch. These cars, with their long, massive hood, have a compelling look of power and dignity. Louvers are of the stylish door type, five on a side, and can be locked without raising the hood. An adjustable

individual sun visor for the driver is an attractive feature. Headlamps, when of the characteristic Pierce-Arrow type, no longer follow the track of the wheels; instead, they are set a bit off center so as to spread the light better over the road.

Ford Town Car Attracts Attention. The new Ford town car attracts attention, and a number of them have been sold at the show. One type comes in thorn brown with gold striping, trunk rack and wire wheels in fender wells. Another is in black with standard tire carrier and fenders. This town car body is by Le Baron, who has designed so many custom-built bodies on Lincoln chassis.

An interesting single side window, unusually large and of unusual shape, plays a part in the effect produced by a Fleetwood all-weather phaeton coupe for five passengers on Cadillac chassis. This car is in Galahad gray with black moulding striped in gold. The top is in khaki, with bows on the inside. The trunk in rear is streamlined and done in gray to match the body.

A study in effectiveness of the new colors is an Advanced Six Nash cabriolet done in a soft gray tan with Sudan brown trim and dark brown moulding with crimson lining. The low, rakish top is in khaki, while seat and rumble upholstery is in light brown leather. The car is on the 130-inch Nash wheelbase, and, altogether, is a dashing job.

An outstanding example of the lengths to which designers are going to insure against jolts in the medium priced field is the Oldsmobile. Study of the chassis in the exhibit of this car reveals a

number of details of engineering that make for greater comfort and smoother riding. Lovejoy shock absorbers are fitted front and rear. Even the bumper is carefully insulated with rubber. An instance of careful engineering is the fact that the connecting rods or rifle-drilled for force feed to the wrist pins.

Henry Rottermann of Midstate Motors has another special Chandler paint job at the show. Two years ago his "Honeymoon Special" for motor campers was sent all over the country. Last year his "Gold Coach" attracted attention. At this week's show he has a Chandler eight sedan in white, painted with scenes representing the settling and developing of St. Louis, from the days of the French explorers to the flight of Lindbergh and plans for the new river front.

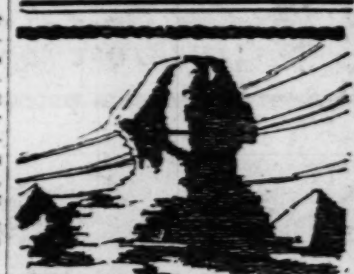

Willys-Knight Changes Plan. A complete change in the policy of merchandising Willys-Knight cars was announced at a meeting of Willys-Overland dealers at the Hotel Coronado yesterday. A Willys-Knight sales division has been created, in charge of Nelson Beardsley as general sales manager.

W. A. Elliott, St. Louis zone sales manager for Willys-Overland, has been appointed Willys-Knight sales manager of the extensive South-west region, which extends from Kentucky to Idaho and South to Texas and New Mexico. He will have headquarters in Kansas City. Elliott will be succeeded in the St. Louis Willys-Overland zone management by J. S. Beebe, who has been a special representative out of the office of Colin Campbell, vice president in charge of sales.

George M. Graham, vice president of Willys-Overland, Inc., and

E. D. Knowles, regional manager, with headquarters at Kansas City, were among speakers at the meeting. Graham pointed out that last year Willys-Overland production was 102,000 cars over the company's best previous year and to

*London's most distinguished beauty expert*

## Madame JACOBSON

recommends one treatment...and one only to retain the charm of facial loveliness

Royalty and the most fashionable women in the British Isles learn from Madame Bertha Jacobson a simple home treatment to keep the skin lovely and youthful.

"I urge my clients to use only the soap blended of palm and olive oils. It provides that absolute skin cleanliness which must be the foundation of beauty."

*Bertha Jacobson*

11/12 DOVER STREET, LONDON, W. 1

Madame Bertha Jacobson has taught the secrets of beauty culture to many of the world's most celebrated beauty scientists.

ROYALTY and the smart women of London have, for years, entrusted all their beauty problems to Madame Bertha Jacobson of London's select Westend. Those in search of the technique of beauty culture consider her teaching invaluable.

After 22 years' experience as beauty dictator, Madame Jacobson turns to one of the simplest of all beauty treatments for home use.

### Madame Jacobson's invaluable advice on skin care

"To enable my clients to safeguard their complexions—to retain radiant skin texture," says Madame Jacobson, "I provide them with my own special Skin Food Creme to be used at night and I ask them to use my famous Skin Tonic after cleansing the skin."

"I urge them to use no soap other than Palmolive, as I have found that the bland oils of which this soap is made provide the absolute skin cleanliness which must be the foundation of beauty," Mme. Jacobson writes us. "At the same time, I warn them of all the harsh effects of soaps not made exclusively of these oils."

In these brief phrases, London's chief exponent of beauty

culture voices an opinion held by specialists on skin care all over the world.

### Why palm and olive oils

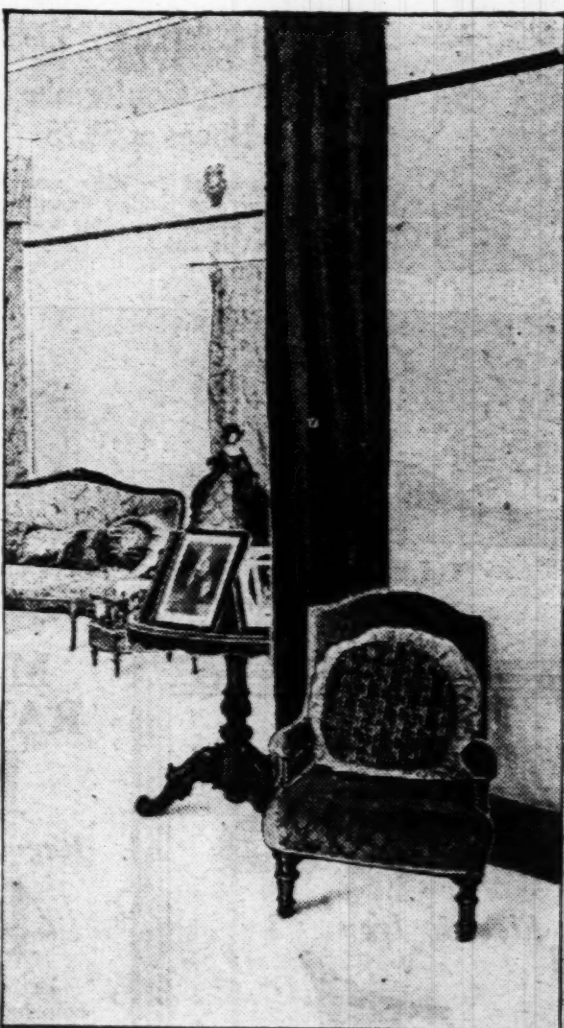

The poisonous and dangerous secretions of dirt and pores must be removed, Jacobson will tell you. Palm and olive oils, as they are blended in Palmolive Soap, act to soften the skin, to cleanse the pores, to refresh the natural coloring. They provide the natural way to skin beauty.

In America this is, of course, well known. Leading specialists advise the Palmolive method of skin care wherever beauty culture is practiced.

The method they use is that subscribed to by Madame Jacobson. This treatment, night and morning, is a creamy lather of Palmolive Soap and warm water. With both hands massage this well into the skin two minutes, allowing it to penetrate the pores. Then rinse, first with warm water, gradually with colder. A final rinse with water is refreshing as an astringent.

For a dry skin, a touch of cold cream before the powder and rouge; for oily skin, an astringent lotion, a face application of vanishing cream before make-up. This is what specialists tell you!

Madame Jacobson, in her London salon; Lina Cavallotti, Paris; Pessl, in Vienna; Elise Bock, in Berlin—all over the world, specialists in beauty care recommend Palmolive, which is leading soap in the United States and 48 other countries.

At 11-12 Dover Street, in London's select Westend, is the Maison de Beauté Pompadour, Ltd., presided over by Madame Bertha Jacobson. Here, for the past 22 years, Madame Jacobson has helped to solve the beauty problems of London's smartest women.

A precious formula embodying the precious oils of palm and olive, famous since the days of Cleopatra for promoting health and beauty.

## SCHOOL BOARD SEEKS TO FACE ITS CRITICS

Invites Two Detractors to Substantiate or Withdraw Their Charges.

The Board of Education has invited two of its critics, Mrs. Jerome E. Cook of University City and Boaz E. Watkins, the latter a candidate for election to the board, to appear at its meeting Tuesday night and substantiate or withdraw statements which they are quoted as having made in recent interviews.

In its letter to Mrs. Cook, who lives at 7069 Maryland avenue and heads the education committee of the St. Louis League of Women Voters, the board states that she was quoted in the St. Louis Star of Dec. 6 as saying that scores of parents residing in St. Louis were paying tuition to send their children to public schools in St. Louis County, "because their patience has been exhausted by bickering and dissension in the St. Louis Board of Education."

"The article quotes you as making other statements derogatory to the administration of the St. Louis public schools," the letter states. "These are grave charges to make against 12 citizens elected by the people of St. Louis to direct public education."

A similar letter was sent to Watkins, an attorney, who was quoted in the Star, Jan. 31, as declaring that the departments of instruction, buildings and supplies are conducted in a wasteful manner, and that "schools are located apparently at random and money is spent without proper consideration of the necessity." These charges, the board says, reflect on the efficiency and business integrity both of the members and of the board's executive officers.

Arthur A. Blumeyer, president of the board, signed the letters sent to Mrs. Cook and Watkins.

## 5,000,000 AUTOS TO BE PRODUCED IN U. S. THIS YEAR

Continued From Preceding Page.

tailed \$16,000 Whippet and Willys-Knight cars. He said also that Willys-Overland was one of the only three manufacturers that ever exceeded a production of 300,000 cars in a year or 40,000 in a single month. Willys-Overland dealers increased by 60 per cent in 1928. A banquet for Willys-Overland dealers was given in the evening.

Auburn dealers were informed, at a luncheon and meeting at Hotel Statler yesterday, that the company proposed to increase from a production of 17,000 cars in 1928 to 45,000 to 50,000 this year. The increase, Neil McElroy, general sales manager for Auburn, explained, would be possible because of the introduction of the new low-priced six-cylinder car and the new medium-priced straight eight. Frank J. Riley, manager of the Auburn St. Louis Co., presided.

Auburn has rebuilt and re-equipped the old Lexington automotive plant at Connersville, Ind., at an expenditure of \$1,500,000, and this has a capacity of 200 cars a day. The Central Body Co. plant at Connersville also has been taken over. This has a capacity of 400 bodies daily, and is so located that bodies can be carried on conveyor or chain from the plant to the Auburn assembly line. The Lycoming Motor Co. at Wilmington, Pa., owned by Auburn, is working 24 hours a day seven days a week. The main Auburn plant at Auburn, Ind., also has been materially speeded up for production.

Knute Rockne, Notre Dame football coach; John Warner, assistant to the chief engineer, and Paul Castner, all-American fullback, who has become manager of the commercial car division, were the chief speakers at a Studebaker dealers' convention and dinner at Hotel Jefferson today.

H. Krohn, general sales manager of the Hupp Motor Car Corporation, addressed a meeting of Hupmobile dealers sponsored by the distributor, the Weber Implement and Automobile Co. The session was held at the Claridge Hotel today.

Midwest Motors, Inc., was host to Chrysler and Plymouth dealers at the Coronado Hotel today. S. W. Monroa of the Plymouth division of the Chrysler Corporation, spoke.

H. J. Klingler, general sales manager of the Chevrolet Motor Co., was the principal speaker at a meeting of Chevrolet dealers at 1:30 o'clock this afternoon at the Odeon and is to speak at a banquet tonight at Hotel Jefferson. More than 600 Chevrolet dealers from the St. Louis territory were expected to attend to hear plans detailed for the largest selling campaign ever launched by an automobile factory.

Klingler predicted a record automotive business for the St. Louis area, and told of Chevrolet plans to market 1,250,000 cars in 1929, a quarter of a million more than the goal set and passed in 1928.

Klingler was to be accompanied by W. A. Bies, Chevrolet manager of dealers' financing and accounting; J. H. Blackmore, assistant sales promotion manager; T. E. Chancellor, assistant manager of the truck division; T. G. Frazier, service promotion manager, and W. H. Powers of the sales department.

Arrangements for the Chevrolet meeting were in the hands of A. W. L. Gilpin, regional sales manager; O. E. Nonn, zone sales manager; E. W. Berger, sales promotion manager, and others.

## FROCKS

In "Step" 1/2 sizes for Matrons and Misses

Who Want to Appear Slender

TO meet the demand of our more exacting half-size clientele we have created a new department devoted exclusively to women wearing these "step sizes." This department will solve your problem of correct fit in modes that have slenderizing lines. They are especially styled for you—with more muscle room, larger armhole, fuller bust, shorter sleeve, wider hips, shorter skirtline. These frocks are the last word in smart fashion designed to emphasize to the full the chic of the small figure—to add to her height while presenting her in the newest version of Paris fashion.

# ASKS FOR MUSIC OVER RADIO, NOW HE HAS TO PAY ALIMONY

Special to the Post-Dispatch.  
GRAND RAPIDS, Mich.—George Vester is an ardent radio fan. And George hesitated not a minute in

asking his favorite orchestra of the air to play a radio number—but he probably will think twice before doing so again.

Vester left Grand Rapids four years ago when a local judge granted his wife a divorce and ordered the payment of alimony. A

short time ago an announcer in Memphis, Tenn., told the world a song about to go on the air had been requested by George Vester of Memphis.

A relative of Mrs. Vester heard it and tipped off police. George was taken into custody.

## ROSENWALD AIDS ROCKEFELLER JR. IN FIGHT ON STEWART

Although Not a Stockholder, Capitalist Asks Friends Who Own Shares to Help Oust Chairman.

By the Associated Press.  
CHICAGO, Feb. 6.—Julius Rosenwald, capitalist, philanthropist and head of Sears-Roebuck & Co., has extended his support to John D. Rockefeller Jr. in the effort to oust Robert W. Stewart from the chairmanship of the Standard Oil Co. of Indiana.

"I have written some letters to owners of Standard Oil stock asking them to give their proxies to Mr. Rockefeller," Rosenwald said, adding that he himself is not a stockholder.

"I said in those letters that it was fitting for stockholders in any enterprise to see that the business is managed by officers whom they could trust."

Rosenwald today explained his stand with the Rockefellers, declaring he had no personal interest. "I believe," he said, "that stockholders in American businesses—stockholders made up to a large extent from the rank and file of our citizens, ought to be able to feel that their officers are honest and that they conduct the great business concerns in ways worthy of confidence."

"Stewart, I think, has injured the standing of business officials throughout the country. To a certain extent he has cast reflections upon the officers of every large company."

"These convictions constitute the only interest I have in taking any part in the fight between Rockefeller and Stewart. Stewart and I have been on friendly terms for a number of years, and I have no personal desire to injure him."

"John D. Rockefeller Jr. I believe to be one of the most admirable citizens our country has. He is as fine a character as any with whom I have come in contact. He has nothing to gain personally, so far as I know, from his attack upon Stewart. His action is based on his interest in business honesty, and he is rendering a great service in not condoning actions of which Stewart has been guilty."

Rosenwald is a trustee of the University of Chicago, which is Rockefeller endowed, but he said that had nothing to do with his stand on the Stewart stewardship. Books of the Standard Oil of Indiana were closed at 5 o'clock yesterday afternoon, as far as voting at the March 7 meeting of stockholders is concerned. Stock that changed hands in yesterday's turbulent trading in Chicago enabled the new purchasers to vote at the March meeting, provided the stock transfer was recorded. Purchasers on the Chicago market, however, couldn't have the transfer recorded in time to assure them votes.

The Tribune said today that representatives of Stewart were active in the solicitation of proxies, owners of as few as five shares receiving attention.

The price of Indiana Standard stock at yesterday's close was \$108 a share on the Chicago Curb, as compared with \$96 on Monday, when a 50 per cent stock dividend, the regular cash dividend of 6 1/2 cents and an extra cash dividend of 50 cents a share were voted.

Stewart is New York to Confer With His Attorneys.

NEW YORK, Feb. 6.—The Herald-Tribune says that Robert W. Stewart, chairman of the Standard Oil Co. of Indiana, arrived yesterday for a secret conference with his attorneys.

Presence of the man John D. Rockefeller Jr. is seeking to oust from the chairmanship of the company was withheld by his representatives, but word of his arrival was obtained in two unimpeachable quarters, the paper said.

A broker interested in the oil business says that Stewart had conferred with an acquaintance on the train from Chicago. He left the impression that he was not here in connection with the fight for proxies. Although the Standard Oil Co. of Indiana has its subsidiary, the Pan-American Petroleum and Transport Co., in this city, the fact that he was here in this connection was discounted in Wall street, where it was said that Stewart undoubtedly was engaged entirely by his struggle with Mr. Rockefeller.

The five traders who specialize in the common stock of the Standard of Indiana on the New York Curb Market were buried under such an avalanche of orders in the stock yesterday that an opening price for the day was not agreed on until after 1 o'clock, when the trading session was more than half over.

The declaration of a 50 per cent stock dividend, which amounts to about \$200,000,000, after the close of Monday's market, brought an accumulation of buying orders totaling about 70,000 shares when the market opened. Virtually the only offers to sell were in odd lots, which made the process of arriving at an opening price extremely difficult. Finally the price was set at \$108.25, a rise of \$12.50 a share. The stock subsequently sold as high as \$102, but sold off to \$99.13 1/4 at the close. Nearly 130,000 shares changed hands during the session.

Much of the selling was said to have come from small traders who

## KILLS SELF OVER TROUSSEAU

Got Thought Sum He Gave Her Too Small, Father Says.

By the Associated Press.  
RICHARD CITY, Tenn., Feb. 6.—Lack of what she considered the proper sum to spend on her trousseau caused Miss Della Kirkpatrick to kill herself, according to her father, Dr. J. A. Kirkpatrick. The girl died Monday of a self-inflicted bullet wound.

Dr. Kirkpatrick said she told him yesterday she was to marry a young man from Kansas. "It was asked for money for a trousseau as much as she asked, so said. A he left the room she shot herself according to her father."

Iowa Slayer Gets Life Term  
BURLINGTON, Ia., Feb. 6.—John Vaughn, alias John Higgins, convicted of second-degree murder for the slaying of Max Shepherd on Huron Island was sentenced to life imprisonment yesterday by Judge James D. Smith, in District Court.

## Corns

Stop Hurting Instantly then Lift Right Off!

Drop "Freezone" on that achin corn. Instantly it stops hurting then shortly you lift the corn right off with your fingers. You'll laugh really! It is so easy and doesn't hurt one bit! Works like a charm every time.  
A tiny bottle of "Freezone" costs only a few cents at any drug store, and is sufficient to remove every hard corn, soft corn, and callouses. Try it!

## ROSENWALD AIDS ROCKEFELLER JR. IN FIGHT ON STEWART

Continued From Preceding Page.

bought the stock when a struggle for control of the company in the open market was expected between Rockefeller Jr. and Stewart. The last day on which stock could be bought in New York in time to be recorded to be voted at the meeting was Monday, as the books closed yesterday.

The highest the stock has sold on the New York Curb was \$103, which figure was reached during the recent struggle "to get in on the rise" when an open market fight for control was thought to be getting under way.

**Minority Standard Group Organize Justice Society, Inc.**

NEW YORK, Feb. 6.—A group of minority Standard Oil of Indiana stockholders have organized under the name of the Justice Society, Inc., to vote for Col. Robert W. Stewart's re-election as chairman of Standard of Indiana and later his removal and the entire board of directors through court action. W. G. Williams, a retired engineer and the society's leader, announced today.

His society is not joining forces with John D. Rockefeller Jr. to oust Col. Stewart at the March 7 directors' meeting, Williams said, because he and his associates believe the other Standard Oil groups, including Standard of New Jersey, are taking advantage of the fight to gain control of the Indiana company. This, in his opinion, would be to the detriment of Indiana stockholders.

"For a number of years Standard Oil of Indiana," Williams pointed out, "has been at loggerheads with a number of Standard Oil of New Jersey subsidiaries, particularly the Continental Oil Co., the Ohio Oil Co., the Prairie Oil & Gas Co., the Carter Oil Co., and the Prairie Pipe Line Co. Rocky Mountain Monopoly. These subsidiaries for years have been trying to break into the Rocky Mountain area where Standard of Indiana, through its subsidiary, Midwest Refining Co., has enjoyed a monopoly. Down in the Midcontinent field in the past year Standard of Indiana gives further offense to Standard Oil of New Jersey by building another pipe line to Chicago in competition with the Prairie Pipe Line Co."

The court action to remove Col. Stewart and the board of directors, Williams said, will be based on charges that the "directors have not taken proper cognizance of what Col. Stewart owes the company in the way of interest on bonds he held for six years and that they permitted the board of directors of the Midwest Refining Co. to vote to Henry M. Blackmer practically \$800,000 of the Continental Trading Co. bonds."

## DIRECTOR OF U. S. VETERANS' HOSPITAL IS TRANSFERRED

Dr. I. R. Wagner to Organize Government Institution at Tucson, Ariz.

Dr. I. R. Wagner, director of the U. S. Veterans' Hospital at Jefferson Barracks, will be transferred to a veterans' hospital at Tucson, Ariz., Feb. 15, he was informed in a telegram from Washington yesterday. His duties in Tucson will be in the way of organizing the institution there.

Dr. Wagner has been at the Barracks hospital since September, 1927, and prior to coming here was clinical director of the Edward Hine Hospital at Maywood, Ill.

Dr. Wagner's successor here has not been named.

## JEWELS SAFE IN FIRE RUINS

Otto Marx Valuables Worth \$150,000 Found; Home Destroyed.

By the Associated Press.

NEW YORK, Feb. 6.—A small safe containing jewels valued at \$150,000 and the family silver was recovered yesterday from the ruins of the home of Otto Marx, international banker.

The home, containing many art treasures, was destroyed by fire while the members of the family, with the exception of a 15-year-old daughter, Audrey, were attending the theater. The loss was estimated at \$1,000,000.

Stutz was first to use safety-glass all around. Of course, it is standard on these two cars at the Auto Show.

## A Failure at Thirty-five; Successful at Fifty

Late in life, Phospho-Cod gives strength and pep to do things in a successful way

Hundreds of men are proving every day that it's never too late to come back, and come back strong. You can do it too! How would you like to surprise all who consider you "just about through," dazzle them with a flashing burst of speed and energy, and capture the success which so far has eluded you?

It's all a matter of winning back your full share of pep and vigor—the energy to do things in a big way—and a health of body that makes for ambition and mental alertness.

There is an amazingly quick, safe and enjoyable way of doing this. Phospho-Cod, a fine old prescription, is guaranteed to double your pep in twelve days. So many hundreds of happy men and women have already profited by the wonderful rejuvenating powers of this fine old tonic, that Walgreen Drug Stores feel perfectly safe in making you this offer: If, after twelve days, Phospho-Cod hasn't made you a healthier, happier person, they'll refund what you pay for it.

You'll enjoy taking Phospho-Cod, for it has a flavor like rare old wine. From its peptones of cod, livers you'll get new pep and energy, and its purifying extracts and hypophosphites will help throw off the poisons which weaken the system. Phospho-Cod is priced well within the means of everybody, and can be had at all Walgreen Drug Stores.

## QUEEN MOTHER OF SPAIN DIES OF SUDDEN ILLNESS

**Maria Christina Who Was Regent at Time of War With U. S. Succumbs in Madrid.**

By the Associated Press.

MADRID, Feb. 6.—Maria Christina, Queen mother of Spain, under whose rule as regent Spain fought its war against the United States, died at the royal palace at 3:20 a. m. today.

Her son, King Alfonso XIII, and members of the royal family were at her bedside when the end came after a sudden illness. Late last evening she felt a slight indisposition and required the aid of servants. The King and Queen were notified.

The royal physician was summoned, and for a while the patient responded to his treatment, but a fainting spell about 2 o'clock left her very weak.

Regent for 17 Years.

Maria Christina ruled Spain as regent from 1885 to 1902, when her son, Alfonso, who was born six months after the death of his father, Alfonso XII, in 1885, became old enough to assume the throne.

The period of her rule was one of the most critical in Spanish history, and in it the country lost almost all it had left of its once far-reaching colonial possessions. The colonial dissensions led also to the war with the United States. Besides these external troubles, the regent was forced to combat conspiracy at home which often threatened the Government.

An Austrian Princess.

She was an Austrian by birth, the daughter of the Archduke Charles Ferdinand of that country and the Archduchess Elizabeth Francisca Maria. In her early years she had led a secluded life in a convent and finally became abbess of a convent for noble women.

She met King Alfonso when he visited Austria after the death of his first wife, Queen Mercedes of Bourbon, and married him shortly afterward, abandoning her intention of becoming a nun.

There were three children, two daughters, both of whom died early in the present century, and a son, Alfonso, now King of Spain.

## STEWART SLATED FOR BOARD OF NEW BANK IN NEW YORK

David F. Houston, Formerly of St. Louis, to Be Director of Institution, Raskob Chairman.

NEW YORK, Feb. 6.—The New York Times says that a new Wall Street bank to be known as the National Union Bank & Trust Co., with an initial paid in capital and surplus of \$55,000,000 will open for business soon, probably in the Wall Street district.

Archibald Blake, vice president of Metropolitan Life Insurance Co., is chairman of the committee which has been meeting almost daily for some time with a view to making public announcement of the new bank. It was said that the new bank will be capitalized at \$50,000,000. Virtually all of this has been placed privately at \$111 a share, subject to allotments after the bank is chartered.

The \$55,000,000 capital and surplus will be divided as follows: \$10,000,000 capital for the bank, and \$45,000,000 surplus and \$10,000,000 capital for securities company and \$5,000,000 surplus.

It is understood, the Times says, that John J. Raskob, chairman of the Democratic National Committee, is being considered for chairman of the board of directors. Among the probable directors are Robert W. Stewart, chairman of the board of the Standard Oil Co. of Indiana; W. C. Procter, president of Procter & Gamble; H. H. Timken, president of Timken Roller Bearing Co.; David S. Houston, president of the Mutual Life Insurance Co., and a former member of the Wilson cabinet; Eugene L. Norton of Norton Co., investment bankers and vice chairman of Baltimore Trust Co.; Howard S. Cullman of Cullman Bros. Inc., and a member of the Port of New York Authority; William F. Kennedy of the William F. Kennedy Co., builders. Kennedy is a personal friend of former Gov. Smith.

Boat Missing After Collision.

PLYMOUTH, England, Feb. 6.—The steamer Manchester Commerce, which sailed from Houston, Tex., Jan. 18 for Bremen and Hamburg, collided yesterday with an unidentified vessel off Eddystone light in a dense fog. The Manchester Commerce reported that she searched the vicinity but found no trace of the other boat and it was feared that it had foundered with all hands. The Manchester Commerce was not damaged seriously and she proceeded on her voyage.

British Group to Visit Russia.

LONDON, Feb. 6.—The Russian Government having intimated that it would welcome a visit to British industrial representatives, manufacturers and exporters of London have decided to send a delegation to Russia. The business men will start not later than March 8. The delegation has enlisted representatives of the Armstrong and Whitworth Steel, Dunlop Rubber and several cement machinery concerns.

## COL. ORRICK EXPECTS TO QUIT WITH REST OF POLICE BOARD

Although a Holdover Member, He Says He Has Not Talked With Governor Regarding Re-appointment.

Col. Allen C. Orrick, president of the Board of Police Commissioners, today said he expects to step out of office with the other commissioners as soon as Gov. Caulfield appoints a new board. He added that he and the Governor have had no conversations regarding reappointment to the board. Following custom, Col. Orrick, who is the holdover member of the board and whose term does not expire until next January, tendered his resignation to Gov. Caulfield when the latter took office last month. It was thought at first that Orrick might be re-appointed by Gov. Caulfield. Other members of the board are Commissioners Freund, Magoon and Kortjohn. It is virtually certain that Gov. Caulfield will appoint an entirely new board, but not until after the mayoralty primary, March 8.

## FEDERAL JUDGE WHAM ILL.

DRY LAW CASES DELAYED

Four Officials of Herrin (Ill.) to Be Tried Next Wednesday; Jurist Has Laryngitis.

A last-minute continuance of the trial of four Herrin, Ill., officials under an indictment on charges of conspiracy to violate the national prohibition law, was announced today when physicians for Federal Judge Wham of East St. Louis decided that he was too ill to leave his room at the Broadview Hotel. He is suffering with laryngitis and tonsillitis. The trial, scheduled to begin today in Federal Court at East St. Louis, was postponed until next Wednesday morning. The defendants are Mayor Marshall McCormack, Chief of Police John Stamm, Water Superintendent Alvin Misker, and Elmer McCormack, a policeman and brother of the Mayor.

Proposes Texas-Oklahoma Parley

By the Associated Press.  
WASHINGTON.—The Senate Judiciary Committee has approved and sent to the Senate a resolution by Senator Thomas (Dem.), Oklahoma, to authorize the President to invite conferences between the Governors of Texas and Oklahoma, to settle their boundary dispute.

## MOST ROBBED MAN IS HELD UP TWICE IN A SINGLE NIGHT

Jack Hall, Kroger Store Manager, Has Been Victim Nine Times in Year Which Is Police Record.

### HE THOUGHT HE HAD FIRST THIEF FOOLED

Secreted \$37 in Cash but on Way Home He Is Taken Back by Men in Auto to Get Money.

Jack Hall, Kroger store manager, was held up twice last night, thereby establishing a record. Police say he is the only St. Louisan who has been held up nine times in a year and twice in one night.

Hall was waiting on a woman customer in the store at 5600 Lotus avenue at 5:35 o'clock when a man walked in, flourished a revolver, took \$30 from the cash register and walked out, without molesting the customer. Hall thought he had the last laugh on the robber—anticipating the raid, he had secreted \$37 cash and \$20 in checks in a grocery bin.

At 7:15 he closed the store and left for his home at 3148A Texas avenue. As he rounded the corner of Lotus and Clara avenues, an automobile occupied by two men pulled up to the curb. One of the men displayed a revolver and invited Hall to take a ride. He accepted.

The men apparently were strangers in town—their car had an Illinois license—and didn't know Hall already had been robbed. They wouldn't take no for an answer.

"I haven't got any money, the first stickup man cleaned me out," Hall pleaded. The armed man struck Hall in the face, by way of expressing doubt.

They drove back to the store. At the point of a revolver, Hall was compelled to unlock the door. Under the same urging, he disclosed the hiding place of the remaining cash and checks, with which the robbers departed, while Hall, for the second time in two hours, notified police.

Hall's previous holdups were as follows: Feb. 7, 1928, \$61.33 taken; April 17, \$42; April 24, \$22; July 8, \$20; Sept. 24, \$35; Oct. 16, \$20; Dec. 18, \$25.

Negro Holds Up Investment Firm and Gets \$225.

A Negro carrying a brief case visited the Nelson Investment Co., 705 Star Building, yesterday afternoon, and presented a note which read: "Give me everything you have." He then held up the cashier, Mildred Derzon, and the manager, Stephen Ladew, and escaped with \$225, which he put in the brief case.

Other holdups reported: David Snyder, 1822A Temple Avenue, \$17; Hugh Hines, 2177 Maple avenue, \$40; John Dycus, 5620 Delmar boulevard, \$35; Louis R. Blanke, 1612 South Grand boulevard, \$110; Marquis Glaser, 1362 Clara avenue, \$40 and watch; Samuel De Woskin, 2082 Kensington avenue, \$100.

Two men drove up to The Spot Hardware Co., 2744 West Florissant avenue, picked up a keg displayed on the sidewalk and hurried it through a plate glass window, causing \$115 damage, and then drove away, without stealing anything.

Theft of a \$148 saxophone from the Normandy High School is being investigated by county authorities.

Eight holdups have been solved, police announce, with the arrest of four Negroes—Leon Knox, Hanna, Eugene Woods and Jerry Jones. The first three have been identified, according to police, by five grocers who were robbed of \$295 in the last week; Knox and Hanna have been identified in a sixth holdup in which \$500 was obtained; Knox and Woods in a seventh holdup, in East St. Louis, in which revolvers, clothing and \$30 cash were taken. Revolvers found on Knox and Jones have been identified as part of the loot. Woods has been identified in still another robbery.

Two men held up Isaac Kaplan, 15, attendant at an oil filling station at 6779 Olive Street road, last night, and robbed him of \$20. Kaplan's brother owns the station and he is employed there at night. The robbers escaped in an automobile.

Miss Minerva Bauer, 2229 Ohio avenue, was robbed of her purse containing \$2.04 last night by five men in an automobile who approached her on Ohio avenue near Utah street. One of the men phoned her arms while the others seized her purse.

A safe in the office of the Cities Service Oil Co., 600 South Vandeventer avenue, was moved into a portion of the office hidden from the street early last night and rifled of its contents—\$20.76 in cash and \$5 in stamps. In the office of the West St. Louis Machine & Tool Co., next door, at 606 South Vandeventer, the combination was knocked from a safe and \$20 taken.

## What Doctors Say About the Laxative Habit

What do YOU do when the bowels need a little assistance? If you clear-up the condition with some laxative made with CASCARET, there is nothing better for the system—for the blood.

But if you don't KNOW the laxative you have learned to depend on is of harmless cascara, here's some truly valuable advice.

The bark of a tree called cascara is the most marvelous conditioner mankind has yet found. It stimulates the bowel's muscular action, but does NOT weaken. A violent laxative forms the laxative HABIT. You always need more on the morrow. With cascara, you don't. Its gentle influence carries on some times for days. With less and less need of any aid, as time goes on.

So, the very next time you feel

sluggish, take only a candy Cascaret. Delightful to the taste, sweet and acceptable to any stomach, and just as efficient as the powerful purges that fairly paralyze the peristaltic walls of the intestines. The only habit you'll get from Cascarets is the one of going weeks and months without ANY help of the kind. And when you do invoke their aid again, the same small dose suffices. Any doctor can tell you about cascara; and any druggist has the candy Cascarets.

## JURY VOTES NOT TO INDICT

### TWO IN FATAL AUTO CRASHES

Drivers Are E. J. Huelman, Whose Truck Killed Child, and Roland Dyke, Whose Taxi Hit Negro.

The grand jury, in a report yesterday, voted not to indict two motorists who were charged with homicide by coroner's juries following inquests in automobile fatalities.

The men are Frank J. Huelman, 3851A Lee avenue, who was driving a truck which killed 4-year-old Stanley Sikorska at Seventeenth and Chambers streets last Dec. 28; and Roland Dyke, a taxicab driver, whose machine struck and killed Lawrence Botto, a night watchman, at Ninth and Mound streets several months ago.

Ernest Moore, a Negro, 1007 North Garrison avenue, was indicted on a charge of leaving the scene of an accident. Moore was charged with homicide following an inquest in the case of Ira Lewis, a Negro, who was killed Christmas day at Garrison avenue and Lawton boulevard when struck by a machine alleged to have been driven by Moore, who was arrested later a mile from the scene.

Reading of "School for Scandal." "The School for Scandal," by Richard Brinsley Sheridan will be given at a circle reading by the St. Louis University Playhouse Club next Sunday evening at 8 o'clock in Sodality Hall, 15 North Grand boulevard. The public is invited. There will be a musical program, and a social half-hour will follow. Milton McGovern, director of the Playhouse Club, will introduce the players.

## DEMOCRATIC CITY COMMITTEE KEEPS HANDS OFF FIGHT

Decides, Informally, to Leave Members Free to Support Any Mayoralty Candidate They Like.

Although supporters of former Federal Judge Henry T. Priest, a candidate for the Democratic nomination for Mayor, had expected that the Democratic City Committee would endorse him yesterday, his name was not mentioned at the committee meeting except for the treasurer's report that he had paid the \$200 fee for filing the declaration of his candidacy.

Instead, the committee decided informally to leave its members free to support any candidate they choose and not to endorse any one during the pre-primary campaign. The committee members are in a quandary as to their allegiance and are wasting valuable campaign time because of the failure of others who are considering entering the Democratic race to declare themselves.

It is anticipated that Dr. John H. Simon will announce as a Democratic candidate after an independent, bipartisan group favoring him holds a quasi-convention tomorrow night at the Odeon, but it is doubtful that he will get support from any of the committee if others also file.

J. M. Lashly Not Out of It. Priest's friends have been claiming the support of the greater part of the committee, but there are strong indications of antipathy to him at present among the members. Committeeman James Miller of the Fourth Ward asserted today that a large part of the committee favored Jacob M. Lashly, president of the St. Louis Bar Association, and from other sources it was learned that Lashly could count on material aid from the committee if he would run. Contrary to a published report, Lashly has not decided to stay out of the race, but he is still considering it.

"Twenty-five of the 28 committeemen would go for Lashly," Committeeman Miller declared, "and the committeewomen probably would go about the same way." There is a movement to induce Tom K. Smith, an investment banker, to run, and one committeeman, who would not be quoted, said today that at least seven committeemen so far favored Smith. This informant thought that the same strength would go to Lashly if Smith stayed out and that Lashly's followers would be for Smith if Lashly did not run. Miller, a Lashly booster, was not sure what the Lashly men would do if their candidate did not enter.

### VISCOUNT ASTOR'S KIN WEDS

Rachael Spender-Clay Is Bride of David Bowles-Lyon.

By the Associated Press. LONDON, Feb. 6.—Society folk, headed by the Duke and Duchess of York, gathered at St. Margaret's, Westminster, today for the wedding of the Duchess's brother, Hon. David Bowles-Lyon, and Rachael Spender-Clay, whose mother was formerly Pauline Astor of New York. Lord Davidson, retired Archbishop of Canterbury, officiated.

The bride, who is a niece of the present Viscount Astor, wore a long gown of ivory and silver brocade. She carried a white prayer-book from which hung strands of orange blossoms. The eight bridesmaids, who included three nieces of the Duchess of York and the daughter of Lady Astor, were dressed in ivory velvet. Two small pages wore red chiffon velvet suits.

### WANT CONTRACT TERMINATED

International Life Receivers Say Attorney Recovered No Assets. Massey Wilson and Ben C. Hyde, receivers for the defunct International Life Insurance Co., formally reported to Federal Judge Davis yesterday that the 45-day contract authorizing Edgar C. Proctor, Chicago attorney, to seek to recover missing assets of the company, had expired, and Proctor had not applied for an extension.

The receivers suggested termination of the contract. Judge Davis reserved decision.

Quits State Health Board. By the Associated Press. JEFFERSON CITY, Feb. 6.—Dr. E. T. McCaughy of Richmond, has presented his resignation from the State Board of Health to Gov. G. A. E. Campbell, effective at the pleasure of the Governor. McCaughy is superintendent of State Hospital No. 1 at Fulton. He said in his resignation he did not think he should hold both positions.

#### After-Effects of Flu More Dangerous Than Flu Itself

One of the peculiarities of influenza is that its toxins leave the digestive system upset. Constant "dosage" for the colds which come so frequently after a flu-attack still further disturbs the digestion and lessens the appetite, just when the body needs nourishment more than ever. And yet these colds are so apt to develop into bronchitis or pneumonia that they must be treated at the first sign.

Yicks VapoRub is especially valuable here, because it is applied externally and so can be used freely without no risk of upsetting a delicate digestion. Just rub it on the throat and chest at bedtime.

## REPUBLICAN ELECTED TO SUCCEED FAUST

David W. Hopkins of St. Joseph Chosen Congressman in Fourth District.

ST. JOSEPH, Mo., Feb. 6.—David W. Hopkins, Republican, was elected to Congress as Representative of the Fourth Missouri District yesterday. He is superintendent of the St. Joseph public schools. Hopkins was elected at a special election to fill out the unexpired term and new term beginning March 4 of the late Charles L. Faust, Republican.

Mayor Louis V. Stigall, his Democratic opponent, conceded Hopkins' election last night when unofficial returns from 183 of the district's 200 precincts gave Hopkins 21,941 and Stigall 20,911.

**BILL FIXING 7 PCT. RETURN FOR PUBLIC UTILITIES DRAFTED**

City Councilor Muench Submit Measure to Missouri Legislature This Session.

IS NOT DESIGNED TO REPEAL PRESENT ACT

Defines in Detail Procedure in Determining Rate-Making Valuation of Companies.

A bill declaring 7 per cent to be the maximum rate of return on the property of public utility companies, a fair return on the property used in the public service and a guide in determining the rate-making value of such property by the Public Service Commission has been prepared by City Councilor Muench and will be introduced in the Legislature at this session. The bill is a proposed amendment to the present State Public Service Commission act, which the rates and services of public utilities, including electric, gas, street car, telephone and telegraph companies, are regulated. The bill is not intended to repeal any part of the present act, unless there is a conflict, but to establish certain standards and practices which Muench believes are necessary for the protection of the public.

Provisions of Bill. On the matter of rate of return the bill says: "In view of the established policy of this State toward public utilities, providing a system of regulated monopoly in lieu of destructive competition, it is hereby declared that a net return to utility, exclusive of taxes and of legitimate operating expenses, not to exceed 7 per cent upon the fair value of the property used and useful and necessary in the service to the public, shall be prima facie reasonable and just." "The bill would not prohibit a higher or lower return than 7 per cent, but would place upon utility companies a greater burden of showing why they should have it and upon the commission the duty of setting the rate in its written report the specific reasons for allowing the higher return.

In the recent rate and valuation case of the Laclede Gas Light of St. Louis the Public Service Commission held the company entitled to earn 7 1/2 per cent on its valuation, and in granting Public Service Co. an eight-cent rate for its gas service, the rate would give the company a return of 7.14 per cent on its valuation as allowed by the commission. The bill would limit the power of the commission in allowing a rate value, a phase of value in which the city frequently contended the commission made excessive allowances. At this point is the allowance of \$1,000 for going value of the Laclede Gas Light Co. The commission should not exceed \$1,500,000.

Allowance for Working Capital. The proposed act provides that when the commission shall value the tangible property of utility companies, it shall take into account, in addition to the cost of construction overhead costs, no rate or specific allowance shall be made for going value, or any other item, unless the commission shall assign and set out in its written report the particular reasons upon which such separate allowance is based, together with specific reasons or reasons therefor which it deems sufficient to justify such allowance.

Under the present regulation Muench says, the people of St. Louis are paying at least a 7 per cent return on a going value allowance for all its utilities of at \$1,000,000, or approximately \$60,000 a year.

The commission also would be required in a valuation finding to state in its written report the weight given to various factors such as original cost, reproduction cost, the existing accrued depreciation, the credit balance in depreciation fund, the general labor and material entering into construction of the property, and market value of its bonds and stocks, and other items. Another section of the bill would require the commission to give public hearing on any proposed complaint made by a city or county, or by consumers, against increased rate, or proposed increase. Under the present law Muench said, cities or counties have no absolute right to be heard and the commission may, if it

ST. LOUIS, WEDNESDAY, FEBRUARY 6, 1929.

PAGES 17—22

PART TWO

## BILL FIXING 7 PCT. RETURN FOR PUBLIC UTILITIES DRAFTED

City Councilor Muench to  
Submit Measure to Mis-  
souri Legislature This  
Session.

## IS NOT DESIGNED TO REPEAL PRESENT ACT

Defines in Detail Procedure  
in Determining Rate-Mak-  
ing Valuation of Com-  
panies.

A bill declaring "per cent to be prima facie, a fair return on a public utility's property necessarily used in the public service and defining in detail the procedure in determining the rate-making valuation of such property by the Public Service Commission has been prepared by City Councilor Muench and will be introduced in the Legislature at this session.

The bill is a proposed amendment to the present Public Service Commission act under which the rates and services of all public utilities, including electric and gas companies, street railways and telephone companies, are regulated. The bill is not intended to repeal any part of the present act, unless there is direct conflict, but to establish certain standards and practices which Councilor Muench believes are necessary for the protection of the public.

### Provisions of Bill.

On the matter of rate of return the bill says:

"In view of the established policy of this State toward public utilities of providing a system of regulated monopoly in lieu of destructive competition, it is hereby declared that a net return to the utility, exclusive of taxes and other legitimate operating expenses, of not to exceed 7 per cent upon the value of the property used in the utility, shall be reasonable and lawful."

The bill would not prohibit a higher or lower return than 7 per cent, but would place upon any utility claiming a greater return, the burden of showing why it should have it and upon the commission the duty of setting forth in its written report the specific reasons for allowing the higher return.

In the recent rate and valuation case of the Laclede Gas Light Co. of St. Louis the Public Service Commission held the company was entitled to earn 7 1/2 per cent on its valuation, and in granting the Public Service Co. an eight-cent street car fare it estimated "that there would give the company a return of 7.14 per cent on its valuation."

The bill would limit the power of the commission in allowing "going value," a phase of valuation in which the city frequently has insisted the commission has made excessive allowances. A case in point is the allowance of \$5,000,000 for going value of the Laclede Gas Light Co. The city maintains this should not exceed \$1,500,000.

**Allowance for Working Capital.**

The proposed act provides: "When the commission shall have valued the tangible property as a useful, co-ordinated, functioning concern, with proper allowances added for working capital and construction overhead costs, no separate or specific allowance shall be made for going value or any similar item, unless the commission shall assign and set out in its written findings the particular facts upon which such separate allowance is based, together with the specific reason or reasons therefor which it deems sufficient to justify such allowance."

Under present regulations, Councilors say, the people of St. Louis are paying at least a 7 per cent return on a going value of \$10,000,000, or approximately \$1,000,000 a year.

The commission also would be required in a valuation finding to state in its written report the weight given to various factors such as original cost, reproduction new cost, the existing accrued depreciation, the present balance in the depreciation fund, the general level and price trend of major items of labor and material entering into construction of the property, the par and market value of its bonds and stocks, and other items.

Another section of the bill would require the commission to give a public hearing on any protest or complaint made by a city or county, or 25 consumers, against any increased rate or proposed increase. Under the present law, Councilor Muench said, cities or consumers have no absolute right to be heard and the commission may, if it sees

## LLOYDS WRITING FLU INSURANCE; RATE TREBLED BY RUSH

Individual Receives \$24 a Week  
While Confined to Bed  
With Disease.

Special Cable to the Post-Dispatch and New York World.

(Copyright, 1929 by the Press and Publishing Co., New York, N. Y., and the Post-Dispatch, St. Louis, Mo.)

LONDON, Feb. 6.—The influenza epidemic here, is responsible for a novel form of gambling on Lloyd's exchange.

At Lloyd's, for generations, they have bet on almost anything, but never before on disease. This new business started a few days ago by insuring individuals against contracting influenza.

The first rate quoted was two shillings, six pence (60 cents) to pay five pounds (\$24.25) for each week the policy holder was kept in bed by the influenza during the next three months.

Such policies rapidly became too popular and the rate rose enormously. Yesterday the head of one Lloyd firm said he had underwritten 400 such policies in two days at a rate of five shillings (\$1.25). Last night the rate had risen to seven shillings, six pence (\$1.50)—three times what it was a few days ago—and policies were still being taken out by the thousands.

### KELLOGG SPARES FRENCH ENVOY

Claudel's Remarks on U. S. Tariff Vexed Members of Congress.

WASHINGTON, Jan. 6.—Diplomacy has been resorted to successfully by Secretary of State Kellogg to forestall what threatened to become a diplomatic incident involving Paul Claudel, the French Ambassador.

Claudel, in an address before the French Chamber of Commerce in New York last Wednesday, mentioned an "inequality of right and wrong" in the American tariff system as it applied to imports from France. Several members of Congress resented the remarks and the subject was about to be brought before Congress when Kellogg intervened. Claudel and Kellogg conferred informally a day or two later. What was said has not been disclosed, but the situation apparently was calmed.

### CHINA TARIFF AUTONOMY O'K'D

Senate Foreign Relations Committee Approves Treaty.

WASHINGTON, Feb. 6.—Approval was given today by the Senate Foreign Relations Committee to the treaty granting tariff autonomy to China.

Secretary Kellogg informed the committee under the treaty China would have the complete autonomy promised to her. He described conditions in that country as greatly improved and said he thought the Nationalist Government was becoming firmly established. The committee, he reported, had approved the treaty, adding a reservation providing for differential duties on tariffs.

### DECIDES TO ACCEPT \$100,000

Polish Town Debated About American Gift for Poor Jews.

WARSAW, Feb. 6.—Jewish Telegraphic Agency.—Deciding that a \$100,000 gift in the will of an American woman for poor Jews in the city is too large a sum to be frowned upon by the City Council of Bialystok, formerly Bromberg, in the province of Posen, has voted to accept the gift.

Reversing its former decision, the City of Bialystok has prolonged its debate as to whether the fund left by Mrs. Leonard Cohen of Wilkes-Barre, Pa., was to be accepted, agreed with the local Jewish community that there are "poor Jews" in the city for whose benefit the American endowment fund might be put into operation. In previously rejecting the fund, the council said there were no poor Jews in the town.

### TWO NOBEL PRIZE NOMINEES

STOCKHOLM, Feb. 6.—The Most Rev. Dr. Nathan Soderblom, Archbishop of Upsala, has been nominated here as a candidate for the Nobel peace prize in 1929 chiefly due to his initiative in organizing the World Church Congress in Stockholm in 1925. Carl Lindhagen, Mayor of Stockholm, also has been proposed for the same prize.

fit grant a utility's application for higher rates without a hearing.

**Fact:** It is provided that a utility seeking higher rates must show the following facts:

A detailed statement, according to the classification of accounts as prescribed by the commission of its operating revenues and expenses for a reasonable period in the past; a detailed estimate of normal operating expenses for a reasonable period in the future; a detailed statement of probable operating revenue to be derived from the proposed rates, including therein business reasonably to be expected from the application of such rates, and other material facts relating to the use of property in the public service.

Under the proposed bill the commission could require the utility to disclose any transactions with other companies or utilities.

## PLAN TO RE-ROUTE NO. 40 ON CONWAY ROAD IS OPPOSED

Residents Around Ballas  
and Spoede Roads Say  
Change Will Destroy  
Value of Country Estates.

## NEW PROPOSAL PUT FORWARD

Would Secure Some New  
Right of Way to Bring  
Route From Olive Street  
to Clayton Road.

Residents of Conway road, in the vicinity of Ballas and Spoede roads, are objecting to a proposal to change the route of U. S. Highway No. 40 through St. Louis County so as to carry it over Conway road.

Accordingly, their representatives have entered a discussion with Division Engineer Rudder of the State Highway Department and County Highway Engineer Jablonsky, with the desire of having another route substituted.

No. 40, which runs from Atlantic to San Francisco by way of St. Louis and Kansas City, now follows St. Charles road through St. Louis County, but this routing is objectionable because of traffic in the city, in Wellston and in St. Charles and because of the narrow bridge over the Missouri River at St. Charles. The State has plans for a new bridge over the Missouri at the end of Olive Street road, with a new location for the highway.

Last October, the County Plan Association, of which Jablonsky is president, published its major highway plan, showing a new route for No. 40 as follows: Clayton road, from the city limits to a point just west of Denny road; a cutoff running northwest to Conway road; Conway road to Olive Street road, and the latter to the new bridge.

In the vicinity of Spoede and Ballas roads, Conway road has been developed in recent years as a region of country estates and homes, off of the beaten track. Westwood Country Club has its new clubhouse and links at Ballas and Conway.

**Three Objections Advanced.**

Benjamin A. Wood, a lawyer who lives at Spoede and Conway, and John Noyes, a town planner, who owns property adjoining Westwood, speaking for the residents and property owners of the neighborhood, expressed the objections to having a State route on Conway road as follows:

First, there would be a sudden radical change in the character of the community, where the householders and others bought the land because of its quiet, rural aspect.

Second, this is one of the few beautiful rural regions left convenient to the city and suburbs and it should be preserved as such.

Third, value of the property for residential purposes would be affected adversely.

When the State first talked of rerouting No. 40 it was suggested that Olive Street road, a commercial thoroughfare, be utilized all the way across the county, but it was found that traffic congestion in the West End of St. Louis, on Delmar boulevard and vicinity, would make this unwise. In the view of city planners.

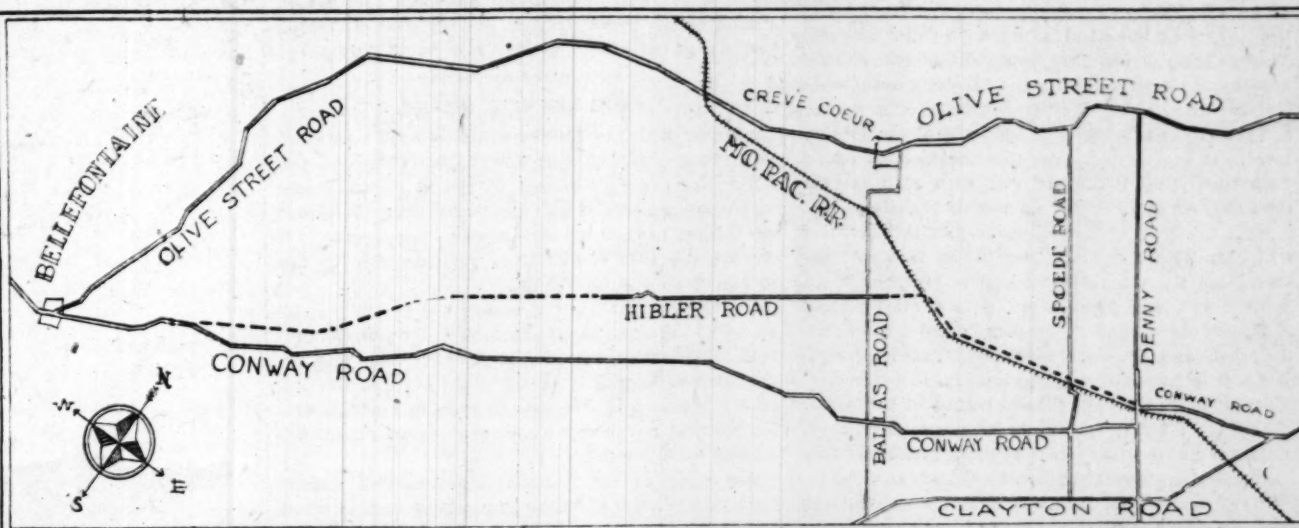

St. Louis authorities desire No. 40 to be brought into the city over Clayton road, so that its traffic can be handled on Oakland avenue and distributed by way of Kingshighway or sent to the Municipal Bridge over Chouteau avenue. With this in mind, it has been suggested to Rudder and Jablonsky that an acceptable alternative would be to use Clayton road to Conway road, a comparatively undeveloped stretch of Conway road as far as Denny road, a new right-of-way adjoining a Missouri Pacific Railroad branch line to the Hibler road. Hibler road westward, a new right-of-way to connect with Conway road near Bellefontaine and thence over Conway and Olive Street roads.

### To Consider Alternate.

About four and one-half miles of new right-of-way would be needed. In the opinion of the Conway road residents, it would be almost impossible to obtain the property to widen their thoroughfare but easy to get the required land along Hibler road and its extensions. Rudder and Jablonsky agreed to consider this alternate, which would be only about a quarter of a mile longer than the Conway route. They declared the whole project was indefinite as to route.

"A great objection to the State highway on Conway," said Noyes, "is the unrestricted use of property, which doubtless would permit the establishment of unsightly filling stations, garages and hot dog stands."

## Alternate Proposals for Rerouting Highway No. 40 Through St. Louis County

THIS map shows the route along Conway road proposed for a new location of U. S. highway No. 40 by the St. Louis County Plan Association; Olive Street road which had been suggested as an alternate; and another alternate put forth by Conway road residents, who object to the change in the character of their thoroughfare. Their proposal is to utilize Hibler road, with extensions at either end, as shown by the dotted lines. From Bellefontaine, No. 40 would run west on Olive Street road to the projected bridge over the Missouri River and thence across St. Charles County to Wentzville, which is on the present location of No. 40.

## WAYS OF RAISING CITY'S REVENUES WILL BE STUDIED

Chamber of Commerce  
Committee Likely to Con-  
sider Advisability of Re-  
moving \$1.35 Tax Rate  
Limit.

In view of the growing needs of the city of St. Louis for more municipal revenue the newly appointed tax committee of the Chamber of Commerce will study the requirements of the city and the possible methods of increasing its income. This was announced today by John P. Green, chairman of the committee.

One subject of study will be the tax rate for municipal purposes now limited by the State constitution to \$1.35 on the \$100 valuation. Although the committee has taken no action on the matter so far, Green said it would be within its province to recommend that steps be taken to amend the constitution to raise this limitation if it is found desirable.

### To Consider Recording Tax.

The committee will consider other taxation changes, some of which Green said, would result in increased revenue for the city. The principal one concerns the recording tax law for mortgages and secured debts. The purpose of this law, which a few years ago was enacted by the Legislature, was to place the recording tax on the Supreme Court, is to make certain that such instruments should be taxed at the time they were filed for recording, the rate depending upon the length of term for which they were to run. This tax, which was comparatively small, was to be in lieu of all other personal property taxes.

Since the law has been held unconstitutional it would require an amendment to the Constitution to make it possible. The State Tax Commission has recommended that the present Legislature and the Chamber of Commerce Tax Committee has appointed a subcommittee to draft such amendment.

**Says It Would Add to Revenues.**

Green said this law would increase the revenue of the State by several millions of dollars and the city would gain materially from it because of the large volume of bonds and mortgages held in St. Louis.

Another reform urged by the committee is the valuing of no-par common stock at its actual value for taxing. Under the present law such stock is valued at \$100 a share for taxation purposes regardless of its actual value. Green pointed out that frequently such stock is worth 25¢ or less a share and that to tax it at \$100 is to tax the stockholder for the value of the stock, which is not a fair tax. He said the stockholder pays a much higher value than \$100 but still pays taxes on only \$100, the city and State suffering loss of revenue in that case.

### Wants Tax Reciprocity.

The committee also urges amendment of the State inheritance tax law to grant reciprocity with other states in the matter of taking stock transfers. This is to prevent double taxation on stocks held by the estates of deceased persons. All states except Florida have inheritance taxes and the Missouri transfer taxes which require payment of a transfer tax on stock of a corporation organized under the laws of the particular State regardless of where the deceased owner lived.

But in 24 states reciprocity laws have been enacted which waive the inheritance tax on stock transfers if the stock transfer tax, provided such tax has been paid in a state which also grants reciprocity. Missouri

## How the Late William H. Murphy Started Ford in Auto Business

Death of Detroit Millionaire Also Recalls His  
Founding of Symphony, Although He  
Was Unable to Hear Music.

By the Associated Press.

DETROIT, Feb. 6.—William Herbert Murphy, 73 years old, capitalist and philanthropist, who died in his home early yesterday of heart disease, was a member of a family which is the largest owner of real estate in Detroit.

Controller of one of America's vast fortunes, Mr. Murphy was the son of one of the noted financiers of the last century, Sir John Murphy, founder of the Murphy fortune, who built the fortune to tremendous proportions through investment in the lumber industry. The family operates five large downtown buildings in addition to the Penobscot, tallest structure here.

Mr. Murphy was president of the Simon J. Murphy Co. and director of the Pacific Lumber Co. and Murphy Oil Co.

**Backer of Symphony.**

He devoted much of his time to furthering the arts. He was the backer and organizer of the Detroit Symphony Orchestra and president of the Detroit Symphony Society. The foundation for the present big symphony organization was laid about 25 years ago by Mr. Murphy with the aid of Frederick Stearns, Ossip Gabrilowitch and immediately the work of building the organization into one of the most important of its kind in the United States was started.

During this time, when every year Mr. Murphy wrote large checks to support the organization, he was able to hear only a few faint tones. Later, every sound was blotted out by his increasing deafness, but his interest in the orchestra continued and he never failed to write annual checks to meet deficits.

In 1926, the radio was used to enable Mr. Murphy to hear the concert and a set was installed in box Z in Orchestra Hall. Since then he was wont to smile contentedly as the ear phones brought to him the music under the direction of Gabrilowitch or Victor Kolar, assistant conductors.

has no such law and stocks owned by deceased persons in this state must pay not only the Missouri transfer tax but also that in the home state of the corporation if it is an outside corporation.

### FOUR KILLED, 3000 HURT IN CEYLON STRIKE RIOTS

Disturbance at Colombo Caused by  
March of 15,000 on Police  
Headquarters.

By the Associated Press.

CEYLON, Feb. 6.—Four persons were killed, 3000 seriously hurt and about 3000 others were injured in yesterday's strike riots here, a check today showed.

The disturbances, which began yesterday when 15,000 striking harbor and railway workers marched on police headquarters, subsided during the night.

The trouble originated in a strike of street railway workers.

**KAWAHAN ISLAND EARTHQUAKE**

By the Associated Press.

HONOLULU, T. H., Feb. 6.—A sharp earthquake was felt at 2:25 p. m. yesterday on the island of Hawaii. It lasted one minute in the district of Kohala, Kona and Hilo, but no damage was reported.

Thomas A. Jaggar, volcanologist, said that the disturbance had its center in the Halemaumau crater of the Kilauea volcano, and was recorded on the volcano house seismograph for 10 minutes. While uncertain of its effect, Prof. Jaggar said the earthquake might be an indication of impending activity of Kilauea.

## STIMSON SAYS HOOVER HAS OFFERED HIM POST

Refuses, However, to Say  
Whether It Is That of Sec-  
retary of State.

By the Associated Press.

MANILA, Feb. 6.—Governor-General Henry L. Stimson today issued a statement in which he said:

"It is true that at the request of the President-elect of the United States I am about to leave the Philippines in order to take up another duty."

It was Mr. Murphy who became Henry Ford's first financial backer, to develop what was then known as "that horseless carriage contraption." Ford, a struggling mechanic, induced Mr. Murphy to take a ride in "one of the things" one day and after a long, bumpy ride to Orchard Lake, Murphy told Ford he would put up the money.

"That long, cold, bumpy ride started Ford on the road to a personal fortune that was destined to take him to exceed even that of his father."

**Learned to Play Violin.**

The capitalist learned to play a violin and viola and developed a keen sense of enjoyment for music through mechanical aids.

Mr. Murphy, with his father and several of the other children moved to Detroit in 1866. He was then only 11 years old, but already displayed a sharp interest in the lumber industry, a business in which his father and grandfather had become moderately wealthy in Maine along the Penobscot River. It was this river whose name is attached so prominently to institutions in Detroit.

C. Hayward Murphy and Mrs. J. Bell Moran are the only children. Mrs. Murphy died a year ago.

Mr. Murphy was born in Bangor, Me., and finished his high school education in old Central High School here. He attended the University of Michigan two years, but had to leave because of his increasing deafness. Later he entered business as a partner of his father. At Simon J. Murphy's death in 1905, he became one of the three trustees of the large fortune. Ten years later he came into full control. The Murphy fortune is said to be one of the largest in the world and is estimated at \$500,000,000.

Stimson is a lawyer. He was born in New York on Sept. 21, 1869. He has served as District Attorney for Southern New York; as special counsel for the Government in the prosecution of the sugar rebate cases and as Secretary of War in Taft's cabinet.

In 1927 Stimson went to Nicaragua as his personal representative of President Coolidge to settle the dispute between Adolfo Diaz and Juan Sacasa, both of whom claimed the presidency. Soon afterward he was appointed Governor-General of the Philippines upon the death of Gen. Leonard Wood. In the World War Stimson was appointed as a Judge Advocate with the rank of Major. Later he joined the 305th Field Artillery as a Lieutenant-Colonel. He was advanced to the rank of Colonel and commanded the regiment in France.

## \$300,000 RIVER FRONT PLAN TENTATIVELY APPROVED

The City Plan Commission at its monthly meeting last night tentatively approved the extensive river-front improvement plan for the north and south sections which was proposed at the January meeting of the commission and fully described in the Post-Dispatch at the time.

The proposed improvement, estimated to cost \$300,000, applies to the river front north from Merchants' Bridge to Chain of Rocks and south from President street to Jefferson Barracks.

Under the plan the city would acquire a number of islands in the bend of the river between Merchants' Bridge and Chain of Rocks and by diverting the course of the river through low land on the east to be purchased from Illinois would create a large park with extensive lagoons and drives.

The south side plan calls for construction of a wide boulevard from President street to Jefferson Barracks. It would be elevated part of the way and would connect some of the south side parks. The whole project would be co-ordinated with the central river front plan already approved by the commission.

**\$1,000,000 From Liquor to Charity.**

QUEBEC, Feb. 6.—One million dollars is to be taken from the profits of the Quebec Liquor Commission next year and turned over to the Charities Bureau. The Government so announced in the Provincial Assembly last night. Up to the present the money spent by the Government for charities has come from the amusement taxes and the tax on meals.

**SENATE PASSES BILL TO PRESERVE HIS BIRTHPLACE.**

WASHINGTON, Feb. 6.—The Senate yesterday passed a bill to preserve the birth place of Abraham Lincoln in Kentucky. An appropriation of \$100,000 is provided for this purpose. The bill now goes to the President.

## CRUISER BILL BACK IN HOUSE AFTER SENATE PASSES IT

To Be Sent to Coolidge for  
Signature After Consider-  
ation of Amendments —  
Approved 68 to 12.

## CALLS FOR START ON FIVE SHIPS IN 1929

Borah Against Measure —  
He and Reed Add Clause  
Looking to Establishment  
of Rights at Sea.

By the Associated Press.

WASHINGTON, Feb. 6.—The bill authorizing 15 new cruisers and an airplane carrier for the United States Navy was almost ready for consideration by President Coolidge today, the Senate having passed the measure yesterday by a vote of 68 to 12 in almost the same form it was approved a year ago by the House.

It was returned, however, to the House for consideration of Senate amendments, which were few. Early approval of them by the House was predicted and the bill then will go to the White House, with its fate in doubt. It was arranged today for the House to take up the bill as the first business tomorrow.

Like the House, the Senate disregarded completely the request of President Coolidge that the chief executive have a free hand in constructing the ships. Against his wish, language was retained in the bill stipulating that the 16 warships be started before July 1, 1931, and specifying the program whereby they would be laid down in three successive years work on five cruisers to begin immediately.

### Amended by Reed and Borah.

The only material change made in the bill by the Senate was the addition of an amendment by Senators Borah (Rep., Idaho), and Reed of Missouri, declaring Congress in favor of the negotiation of treaties fixing the rights of belligerents and neutrals at sea in time of war.

There is no doubt of the displeasure of the President at the refusal of Congress to heed his wishes, but this is not regarded as a sign that he will veto the bill. He had asked for the new ships.

Should the President sign the bill, Congress is expected to begin steps to appropriate the funds necessary for starting work on five of the 16 cruisers before June 30, the second fiscal year's program would be taken care of by the Navy Department appropriation measure.

The entire program calls for an outlay of \$274,000,000, made up of \$17,000,000 for each of the cruisers and \$19,000,000 for the airplane carrier.

### British Navy Cried.

In debate on the measure, which extended for several weeks, there was frequent mention of the British navy which now has 63 cruisers. The United States would have 33 with the 15 new ones of 10,000 tons each. Japan also will have 23 cruisers, but the American tonnage under the new program would be greater by 90,000 tons. Cruisers were not limited in number by the Washington arms conference agreement in 1922.

Senator Norris of Nebraska, a leader of the Republican independents who fought the bill, offered several amendments in the closing hours, but these were swept aside, including one to require the cruiser authorization to nine.

Another amendment by Norris would have requested the President to seek a conference with Great Britain for the limitation of cruisers and would have authorized a suspension of the naval program whenever such a conference was called.

Friends of the bill pointed to the provision already in the measure requesting the President to encourage another naval arms conference and authorizing the suspension of the program in whole or in part when an agreement was reached.

### Borah Votes Against Bill.

Chairman Hale of the Naval Committee, in charge of the bill, and Senator Swanson of Virginia, ranking Democrat on the committee, rushed to the defense of the measure at every attack. Reed of Missouri also was one of the heartiest supporters of the naval program. Borah, however, voted against the measure.

The Idaho Senator, in urging the amendment concerning maritime rules of warfare, made reference to inferences from the White House that President Coolidge saw little hope of success for treaty negotiations regarding sea warfare.

"Any man in charge of the affairs of the United States," he said, "utterly fails in his duties if he does not undertake this treaty negotiation."

Borah added that he had "very little confidence in treaty making if war breaks out but I do believe that by these methods we

The Pulitzer Publishing Company  
Twelfth Boulevard and Olive Street

## THE POST-DISPATCH PLATFORM

I know that my retirement will make no difference in its cardinal principles; that it will always fight for progress and reform, never tolerate injustice or corruption, always fight demagogues of all parties, never belong to any party, always oppose privileged classes and public plunderers, never lack sympathy with the poor, always remain devoted to the public welfare, never be satisfied with merely printing news; always be drastically independent; never be afraid to attack wrong, whether by predatory plutocracy or predatory poverty.

JOSEPH PULITZER

April 10, 1907.

## LETTERS FROM THE PEOPLE

The name and address of the author must accompany every contribution, but on request will not be published. Letters not exceeding 200 words will receive preference.

## Borough Government.

To the Editor of the Post-Dispatch.  
SOME people do not know what the borough system of government means. Some do not know that the metropolitan area plan amounts to the same thing. Some do not know that experts regard the county governments of the United States as anachronisms. Some people would not willingly foist on the St. Louis community the waste of public money involved in the adoption of the borough or metropolitan plan or the reimposition of county government upon St. Louis. Others, who either have jobs now in the petty governments of St. Louis County or relatives or friends on the payroll, or who have hopes in those directions, or who sell or hope to sell supplies to the small units in St. Louis County, are not only willing to continue the present system but even can see richer opportunities in the borough or metropolitan system. In an article entitled "New York City's Expanding Government," published in National Municipal Review, R. Fulton Cutting says:

The relation of borough government to the city as a whole deserves further examination. The present plan was forced out as a compromise in 1897, when the Greater City was formed. It was then that it is an essentially wasteful form of organization. There are still five separate county governments within the single city of New York. This is an unnecessary luxury. The county governments cost the city almost \$12,000,000 a year. A considerable part of this sum may be saved by abolishing the five counties and transferring the remaining county functions to the city. It has already been put into operation in San Francisco, Denver, Washington (D. C.), Baltimore, St. Louis, and all of the cities of Virginia, and is partially in effect in Philadelphia, Boston, and a number of other cities.

HUGH K. WAGNER.

## Mr. McIntyre on London.

To the Editor of the Post-Dispatch.  
REALLY, your Mr. McIntyre is very "odd," indeed, at times. Witness his remark that London is "built on fever-spawning marshes, etc." Rot. London is one of the healthiest of all big cities because it is built on a gravel soil.

LONDONER.

## A Junior College for St. Louis.

To the Editor of the Post-Dispatch.  
THE new Vocational High School will be a real addition in the field of public education in St. Louis. How many people know also of the proposal now before the Board of Education to include in St. Louis' educational system a new junior college, covering two full years of instruction in arts, sciences, and business administration, engineering, etc.?

What a junior college would secure or save in tuition fees, to say nothing of living expenses, for the first two years of one's college education, every one must realize. There must be hundreds of young people in the city of St. Louis, to say nothing of the older people, who would attend a tax-supported junior college, such as other cities in this State have.

Kansas City has had a junior college for a number of years in addition to a Teachers' College. It was first called the Polytechnic College. Its night classes are attended by hundreds of young persons and older men and women. Prof. E. M. Baizer is the principal.

Are the people interested in having a junior college in St. Louis? If you are interested enough to favor the proposal to include in the present Harris Teachers' College a new junior college for the city of St. Louis, why do not you, the high school students, recent high school students and others, write letters of approval or appear before them at the next meeting of our educational fathers, the Board of Education?

ROWLAND HILL.

## For a Festus J. Wade School.

To the Editor of the Post-Dispatch.  
THE proposal to honor the memory of a fine and sterling citizen by naming one of our new public schools the Festus J. Wade School, in perpetuation of his great civic virtues and the many splendid services he rendered to the people of our great city, should receive the unanimous acclaim and approval of every right-minded citizen who believes in giving honor to whom honor is due.

It has been the custom of our School Board ever since its organization in 1828 to name our new public schools in honor of some one of our eminent citizens who has passed on to the Great Beyond, and whose good deeds in life, and whose services to our community, have entitled him to this honor, and certainly all who knew of the services to this community and who desire to honor the man for what he was, irrespective of his creed, must agree that he of all men is entitled to the honor which it is proposed to confer upon his name.

If the truth were known, every good citizen would realize that no man in this community has done more for the school system in higher regard, and who had greater appreciation of the splendid service they render to all of our citizens, than did Mr. Wade.

SAMUEL BOWMAN.

## NAVAL PARITY WITH GREAT BRITAIN.

If President Coolidge's influence in the Senate is measured by the vote on the cruiser bill, which includes the time limit strongly opposed by Mr. Coolidge, it is practically nil. This lack of influence might be ascribed to the approaching end of Mr. Coolidge's official incumbency of the presidency. But his whole term of office has been sprinkled with defeats in Congress.

The vote of 68 to 12 is evidence of a determination of an overwhelming majority of the Senate to put the navy on a practical parity with Great Britain. The adoption of the time limit, which orders the beginning of construction on the 15 10,000-ton cruisers and one airplane carrier within three years, shows a determination to do this at the earliest possible moment. It is manifest that the Senate does not regard the treaty outlawing war with an open gate for defensive wars as any guarantee of peace.

With the 15 cruisers completed the United States will have 33 cruisers, all large, from 7500 to 10,000 tons, and a total tonnage of 305,000 tons. Great Britain will have 59 cruisers, with a total tonnage of 280,000 tons, only 26 of them large cruisers and the others smaller, below 7500 tons. This is practical parity in strength if not in tonnage.

Fortunately, we have the assurance of Sir Austen Chamberlain that our cruiser program neither disturbs nor antagonizes Great Britain, and other British leaders express indifference to it.

The passage of the cruiser bill by the Senate, therefore, creates a situation favorable to naval armament limitation. The two leading naval Powers can negotiate on practically equal terms.

The adoption, with the cruiser bill, of a resolution of Senator Reed of Missouri recommending the negotiation of treaties on the inviolability of private property and the freedom of the seas indicates that the Senate realizes where the greatest danger of war under present conditions lies. Whether the form of the resolution was wise or unwise, it touches the crux of the problem of maintaining peace. If satisfactory guarantees on these points can be established—it is a difficult thing to do—agreement on naval limitation will be easy.

## POISONED LIQUOR.

The Federal prohibition enforcement squad in St. Louis has just discovered a considerable plant in the city for partially removing the poison from commercial alcohol. The purifying process consisted of nothing better than running the alcohol through a long pipe into which steel filings had been packed. Needless to say, the poison cannot be so simply removed from denatured alcohol.

Nevertheless, by driving the liquor business underground and abandoning the regulation which kept poisoned liquor out of the market, we have come to this sort of thing all over the country. The mass of people cannot pay the high prices commanded by imported liquors. They turn to the domestic product, and so create a market for such stuff as was being turned out by this crude St. Louis rectifier. In the course of a year thousands of people are killed by poisoned liquor.

Meanwhile, in almost every state legislature meeting this winter an effort is being made to drive the liquor business still deeper underground. The misguided people who hope to better us in this way propose, as in Arkansas, to make the buyer equally guilty with the seller. In Washington they are trying to add \$24,000,000 to the enormous sum already voted for prohibition enforcement. The forthcoming term of the Federal court in this district will have 500 liquor cases on the docket. It is a mess the like of which the country has not seen since the people revolted against the fugitive slave laws.

Is it any wonder that other countries, such as England, New Zealand, Canada, Australia and the Scandinavian nations, contemplating this amazing spectacle, are all the more convinced that only regulation is practicable.

## RETURNING TO THE CABINET.

The return of Justice Stone to the attorney-generalship, which he resigned to accept a place on the bench of the Supreme Court, is one of the most interesting of the Hoover Cabinet rumors. Public opinion would, we believe, cordially approve this appointment. In his brief service at the head of the Department of Justice Mr. Stone reinvested the office with the dignity and capacity that had been wantonly missing under the maladministration of his predecessor, Harry Daugherty.

The successor of Mr. Stone, Attorney-General Sargent, has been a disappointment. He has rattled around rather futilely in a place obviously too big for him. In the matter of Mr. Mellon's aluminum company, for conspicuous example, it was apparent that Mr. Sargent was simply not on the job. His speeches, too, on several occasions were, to put it mildly, not of Cabinet caliber.

Professionally the office demands learning, experience and great ability. Essentially it demands high character. If, as seems likely, the enforcement of prohibition is to be transferred from the Treasury to the Department of Justice the country will need an Attorney-General with a thorough knowledge of the Constitution and, what is more, a thorough reverence for the organic law. Untrained in the law himself, Mr. Hoover as President will need a lawyer of such attainments in his official family.

Mr. Stone, in our opinion, measures up to the intellectual, ethical and moral requirements of this vitally important office.

## THAT INDIANA MELON.

If Col. Stewart is beaten in his contest with the Rockefeller for the chairmanship of the Standard Oil Co. of Indiana he will retire with the satisfaction of having made a dramatic exit. The dividend of \$300,000,000 declared by the board of directors is the most delectable melon plucked from the Indiana Standard's vine. It is a farewell in the grand manner.

Assurance comes from the company's official quarters that the board's action was not prompted by any desire to influence proxies in the chairmanship fight. Still, people being as they are, as remarked by Michael Arlen, it is a fair guess that a good many stockholders are bound to be kindly disposed towards a management that provides so abundantly. Santa Claus is always welcome, in the slush of February as in the sparkling Yuletide.

The sheer size of this dividend will start curiosity buzzing again as to why Col. Stewart got entangled in that Continental Trading Co. The purchase of such a quantity of oil—33,000,000 barrels—may be a pretty fair morning's work. The possible maximum take-off of \$2,900,000 each for Stewart, O'Neil, Black-

mer and Sinclair may be appraised as a "right smart" day's pay. But for men engaged in such big business as those four oil executives, the Continental affair is a tawdry episode—a piece of petty pilfering. Is there something back of that surreptitious transaction, as Senator Norris recently surmised, that has not yet come to light? Is there still a chapter in the Continental's unsavory story that remains to be told? What could a million or two of easy money mean to men dealing in multiple millions?

Those and similar questions are again in order, by reason of the latest freshest in Indiana Standard's "stream of dividends" under the Stewart regency.

## CENSUS AND CIVIL SERVICE.

Senator Bruce of Maryland has offered an amendment to the census bill, now before Congress, providing for the appointment of special agents, supervisors, supervisors' clerks, enumerators and interpreters subject to the civil service law. Its purpose is to remove the 1930 census from partisan politics, and to insure an accurate count.

In its present form, the census bill makes possible an orgy of patronage-dispensing. Approximately 100,000 workers are needed in the field force and, unless some safeguard is placed in the law, the Director of the Census and his aids may make appointments for political purposes without any regard for qualifications for the work.

According to the National Civil Service Reform League, a reliable census was obtained in 1920 when, at the request of the Director of the Census, supervisors of the census were selected through the machinery of the U. S. Civil Service Commission. For the law to give the director such wide discretion might have less happy results next time.

Previous census takings, notably that of 1890, have been scandalously conducted. In 1890, Republican members of Congress were permitted to choose the field force. A check of its work showed that in New York City, large numbers of residents, often entire houses, had been omitted. The inference was that Republican census takers had deliberately underestimated the population of a Democratic city to reduce its membership in Congress. In 1900 in Maryland, graveyards were canvassed to obtain additional representation in the House of Delegates for the party in power.

Past experience has abundantly proved the desirability of Senator Bruce's amendment, not only to assure an honest and reliable count, but to prevent the wasteful use of census funds.

## VON HUENEFELD, MAN AND SUPERMAN.

The death of Baron Ehrenfried Gunther von Huenefeldt must bring regret to every St. Louisian who saw or heard him during the visit of the intrepid three, first to make the westward flight across the Atlantic, here last May. It is a tragic thing that one of so great accomplishment and promise should go at 36, within a year of the grand achievement; it comes closer to us in remembering not the aviator but the man.

Never a popular hero showed a finer demeanor in the full blaze of first glory, nor one more sure to win a certain feeling of intimacy and affection—even from those in the last fringes of the crowd at Forest Park Highlands, who only saw rather than heard him in his address to the people of St. Louis. Probably no other man could wear a monocle in St. Louis and be liked for it, but the multitude liked the Baron's monocle. He had a personality which warms the hearts. As the formal reception committee and the three aviators approached the battery of cameras upon landing at the old flying field in Forest Park, Baron von Huenefeldt threw his arms about the two men nearest him. In a moment committee and visitors were one line, arms about one another's shoulders, and an affair of formality was transformed into a celebration of old friends.

Soldier, poet, dramatist, aviator—the very list of the man's fields of adventure showed an intrepidly romantic soul, and his keen features and blithe smile completed the story. Seeing him, it was easy to believe that he wrote verses while the Bremen roared out over the wide Atlantic. It was understandable that, hopelessly ill, he ventured much to die in action. It was sheer impossibility not to like him, to be drawn into his joyousness. We shall remember him as man and superman.

## HATS IN PARLIAMENT.

Women have little respect for tradition or rules, and now that they have broken into politics they are forcing many changes. One woman has caused the waiving of an ancient rule and tradition of the British House of Commons.

It is a rule in the House of Commons that members, when moving about the chamber or when speaking after a question has been put, shall wear their hats. Miss Susan Lawrence, a Labor member, was debarred from speaking by the Speaker of the House because she did not wear her hat. The Speaker ruled against a hat improvised out of paper. But on protest from members, the Speaker finally, observing that women did not wear hats while moving around the chamber, suggested that the rule be waived on the part of women members. It was so ordered.

It was an ancient rule that women members have succeeded in dodging. It has been strictly observed despite complaints of inconvenience and discomfort. The rule was in force in the time of Cromwell. Bradshaw, the poet, referring to a speech made by Bradshaw in the House of Commons, abusing King Charles I. wrote:

So Britain's monarch once uncovered sat.  
While Bradshaw bullied in a broad brimmed hat.

The Speaker of the House need not have objected to the improvised hat on the ground of unfitness or ugliness, because a lot of queer hats have been displayed in the House of Commons during its history. The Duke of Wellington is said to have remarked when he saw the first reform parliament: "I never saw so many shocking bad hats in my life."

It is strange that the women should be first to enjoy the benefit of the abrogation of the rule, because usually women wear hats indoors and men do not. St. Paul established the rule that women should not be uncovered in church. Now that women, however, have broken through the sacred rule of parliament that members shall wear hats, doubtless all hats will soon disappear from the floor of the House. A rule that is not enforced on all members ceases to be binding.

Jackson Barnett, multimillionaire Creek Indian, says he did not want to marry his wife. This was a case of Creek meeting Creek.

## SHAKING UP A FISHERMAN.

## Borrowing From Peter to Pay Paul

Germany has met all her reparations payments only because she has floated huge foreign loans; with her imports in excess of exports, more loans will be needed to pay war obligations; when closely analyzed, Mr. Gilbert's report gives a none too favorable picture of Germany's industrial outlook.

From The Nation.

THE fourth annual report of the Agent-General for Reparations, S. Parker Gilbert, which has now come to hand in full, reveals both the smooth working of the Dawes Plan and the inability of Germany to pay as yet any considerable amount on reparation account out of her own resources. In his detailed review, replete with statistics covering almost every phase of business activity, Mr. Gilbert recites that Germany has made as yet no considerable reparation payments, and that, punctuated by a constantly increasing percentage is being remitted in foreign currencies without disturbance to German exchange. The previous annuities have been met without affecting the standard of living of the great mass of the German people and, as we have already recorded, he foresees no difficulty in raising from now on the standard annuity of \$2,500,000,000 of gold marks.

On the other hand, Germany has not achieved a surplus of exports which the experts who devised the Dawes Plan declared to be essential to the financing of reparation payments. Before the World War German imports exceeded German exports, and the same situation exists today. After allowing for corrections, Mr. Gilbert finds that Germany's excess of merchandise imports over exports was over eight billions of marks in the first four annuity years. He deems encouraging the fact that, owing largely to a recession in trade, Germany's imports and exports approached an equilibrium last fall, but he makes no prediction of exports exceeding imports by any large sum in the near future.

Yet, while this heavy adverse balance of trade was piling up, Germany paid with great ease approximately five and one-half billions of marks for reparation purposes. This was done, however, by borrowing abroad more than was needed to meet any payments to reparation creditors. During the four annuity years long-time loans placed in foreign countries for German account approximated six billions of marks, while Mr. Gilbert concedes that the volume of short-time debt owed abroad is very large and difficult of estimation.

In addition, Germany has been borrowing large sums abroad for the purpose of modernizing her industrial plants with view to reducing production costs and expanding her export trade. As taxes are estimated to be absorbing one-quarter of the total national income, the domestic market has been unable to supply in full the capital needed for this rationalization of German industry. Domestic issues of new securities, yielding such high returns—over 8 percent in the case of the mortgage bonds issued by real estate credit associations—that many foreigners have purchased them. While of an indeterminate amount, such purchases, Mr. Gilbert points out, together with long and short time loans placed abroad, have been an important item in figuring the balance of international trade. It is again clear, therefore, that Germany's reparation indebtedness is not being defrayed out of an economic surplus, but from the proceeds of foreign loans. If reparation payments are to continue on the prescribed

scale these foreign loans—which in the words of the Dawes experts disguise and postpone, but do not alter the real situation—will be necessary until such time as Germany produces a surplus available for export above what she consumes. And until this point is reached she cannot dispense with the transfer protection clause of the Dawes Plan without endangering the stability of her currency.

Throughout his report Mr. Gilbert contrasts Germany's present economic situation with conditions in 1913 when affairs were at their worst on account of the French invasion of the Ruhr and the wiping out of the people's accumulated savings through the inflation of the mark. Measured by this method of comparison, Germany's recent industrial progress has been undeniably great. But it should be remembered that other countries involved in the World War have also been recuperating rapidly. Of all the leading belligerents Germany has made the least advance relatively since 1913, as shown in the last issue of the economic review of the Reichs-Kredit-Gesellschaft.

But on careful reading the Gilbert report will be found to give a none too favorable picture of Germany's industrial outlook—despite German protests that it is too optimistic. Instead of escaping from the country seems to be sinking deeper into its financial morass. In the opinion of some authorities new capital is being formed at a rate only half that of pre-war days. German agriculture, Mr. Gilbert reports, is in a precarious state with many agrarian properties mortgaged for more than they are worth. With the decline of German trade last year came an increase in unemployment. As Germany will always depend on foreign countries for essential raw materials and foodstuffs, the attainment of a favorable balance of trade is not an easy task. Her financial burdens are tremendously heavy; there is still much suffering in the middle-class and among great groups of workers. The new committee of experts must bear these facts in mind, as well as Mr. Gilbert's correct view of Germany's ability to pay the standard annuity, in deciding whether that burden shall continue to be placed upon her and, if so, for how long.

## MISGUIDED IDEALISM.

From The Evening Public Ledger.

SENATOR "JIM" REED may not know it, but he has indirectly approved the remark of Arthur Twining Hadley, president emeritus of Yale, that the greatest peril to America comes from misguided idealism.

Senator Reed is supporting the cruiser bill and insisting that the United States have an adequate navy in spite of the adoption of the Kellogg treaty. The idealists, applying the rules of logic, are saying that this treaty has made both armies and navies useless. They forget that the extreme of logic is the extreme of folly, and in their idealism they imagine that the world was made over when the treaty was signed. They should remind themselves that the cities which erect fireproof buildings still maintain fire departments.

WASHINGTON, Feb. 6.

WHEN Republicans and Democrats in can horns on the floor of Congress can always look for a battle royal. When the two clash on a question of prohibition—well, anything can happen. For instance, one of the hottest political fights in recent years was precipitated on the floor of the House when the proposal to increase prohibition enforcement funds by \$24,000,000 came up. It was the moment proposed by Senator Harris (D., Georgia), and passed by that body.

It was a splendid situation for the Democrats, and they were out to make the most of it.

Wood (Rep.), Indiana, asked that amendment be sent to conference. Garner (Dem.), Texas, was on his feet with a statement that such procedure was available to him if the gentleman from Indiana would agree to bring it back to the floor for consideration.

WOOD thought that could be arranged provided the Senate conference did proceed from their previous position. Mr. Garner was not satisfied. He insisted that some assurance be given that the amendment would be brought back.

The fight was on. Republicans were in the fray and Democratic members moved up.

Eyrns (Dem.), Tennessee, impatiently reminded his colleagues that this was a question of vital interest, that members of the House had a right to debate the matter, and that this could be brought about by the Senate conference would merely lay the amendment back.

Wood suggested that perhaps Reed and Garner did not have the proper faith in their Senate friends.

The gentleman from Texas couldn't see for the gentleman from Tennessee, but personally he didn't like the idea of Reed on his Senate friends—that he would prefer an agreement with the gentleman from Indiana.

THE fight went merrily on. La Guardia, the wet Socialist from New York, jumped into it, and Cramton (Rep.), Missouri, tried to squelch him with the remark: "The House can well understand what the chief sponsorship of it goes in, while one of the most capable and most energetic wets in the house." But La Guardia refused to be squelched and hurled back the reply that "We've got you on the run, there's no doubt about it." He was finally asked unceremoniously to get out of the House. He won. Wood roared. "I don't care," he said, "but the amendment is carried, but Celler (Rep.), New York, called for a division. It had carried 72 to 72.

PALAMA AND BREECH-CLOAK.  
From the Louisville Courier Journal.

SOCIETY turned out at Palm Beach, Fla., and the breech-cloak and the news probably concluded that the party at last are getting some sense.

## Of Making Many Books

JOHN G. NEIHARDT

### Fortunately, or Otherwise?

WINGS OVER EUROPE. By Robert Nichols and Maurice Browne. (Covici-Friede).

WINGS OVER EUROPE. The first produced by the Theater Guild at the Martin

Theater, New York, during December, is one of the outstanding plays of the season. Ex-

cellence of some peculiar sort could have been predicted with certainty by anyone acquainted with the

work of the collaborating authors, Robert Nichols and Maurice Browne. Mr. Nichols is a poet of

rare gifts, as even those who have read only his strangely beautiful

poems will grant. Mr. Browne, long associated with the Little

Theater in Chicago, is a past master of stage craft. It is a rare

combination, as the result proves. The action of this "dramatic ex-

travaganza on a pressing theme," as the authors very aptly describe the play, takes place wholly in the

Cabinet Chamber of the British Cabinet. Though all the digni-

taries of the Cabinet are constantly present, all taking part in a

momentous discussion as individuals, they seem, save at the supreme

moment of crisis, hardly so much as individuals as a composite

personality, made so by the fusing power of a common outlook on

the—curiously blind outlook that exceedingly "practical" men

have so often achieved in history. The central figure of the play

is Francis Lightfoot, a weird combination of poet and scientist, who,

though but 25 years old, has by virtue of uncanny genius, attained

lovely heights of scientific understanding far above all the thinkers

of the world. Partly by scientific methods, but more by the divination of the supreme artist, he has

solved the problem of the atom and has perfected a device whereby he can, at will, set up a pro-

gressive disintegration of matter, the process being under his control.

Having wrought as a scientist, he has conceived as a poet the use to which his invention must be

put. Obviously, the destructive power in his hands is limitless, but he purposes to use it as a means

of freeing mankind at last from its immortal slavery to stu-

pid matter. Exhaustless power from the cosmic dynamo itself

will now toll for men, and earth shall be a paradise, even as when the night was newly sown and the

stars sang together. Through his uncle, who is Prime Minister, young Lightfoot has been

given the opportunity to present his scheme to the Cabinet. But it is

not as a suppliant that he comes into the company of the puny ones

whom the world deems mighty. He demands—no less—that within a week the Government shall have worked out a comprehensive plan for the benevolent use of the newly harnessed power—a demand involving, naturally, the most far reaching social revolution ever conceived.

One knows in advance what will be the decision of these hard-headed political Brahmins. They decide that Lightfoot is a very dangerous and very impudent young man; that he shall therefore either destroy his invention and all records thereof, or go to prison for life. Lightfoot returns in a week to receive the decision of the wise ones. Confronted with their proposition, he announces that in exactly 14 minutes the world will be literally blown up, his machine having been timed for the explosion of noon. Frenzied demonstrations having proved his power beyond doubt, the ministry is thrown into a state of hysteria. The group now resolves into a mere collection of frightened individuals. "Fronts" drop off and characters, in process of distinction through terror, become the weak and despicable things they essentially are.

The clock is about to strike when Lightfoot, who has left the chamber for a few minutes and is seen crossing the street on his way back, is run down by a truck. (On the stage he is shot upon entering the room, but the reading version, for some reason not quite clear, has been altered.)

The clock strikes 12—and that is a tense moment indeed! But, as the reader is well aware, nothing happens, and the world blunders on as blind as ever under the shrewd guidance of extremely practical men. Lightfoot, in the very moment of death, evidently fearing that his purpose might still be thwarted, has striven to push the indicator of his watch-like mechanism to the "instantaneous" mark, but—fortunately or otherwise, according to one's mood—the needle has stuck on "safety."

So it seems that we shall, after all, have to go on industriously building up our civilization and increasing our navies as usual.

There is plenty of sly humor and subtly wise social criticism in this very curious play to hold the thinking type of reader; and the dramatic intensity attained should hold, even a low-grade movie crowd.

C. P. Bell Married First in 1912. Christian Peter Bell, son of Col. Nicholas M. Bell, whose fifth marriage was announced yesterday in the Post-Dispatch, was first married in 1912 to Mrs. Hazel Walker Bell, who divorced him in 1918. His second marriage was later in 1918 to Mrs. Helen Bell.

## MISS ELIZABETH FUSZ WEDS JOHN BROWNIGG

Marriage of Sister, Marie Reine Fusz, to Joseph C. Breckinridge, to Be Tonight.

THE attention of society is centered today on the wedding of Miss Elizabeth Fusz, daughter of Mr. and Mrs. Eugene A. Fusz, 6225 Delmar boulevard, to John Brownrigg, son of Mr. and Mrs. Richard T. Brownrigg, 4515 Lindell boulevard, and her older sister, Miss Marie Reine Fusz, to Joseph Cabell Breckinridge, son of Mrs. Elsiebert Louise Dudley Breckinridge of Lexington, Ky., and the late Capt. Breckinridge, the second wedding to be solemnized at the Fusz home at 7:30 o'clock this evening.

Miss Elizabeth Fusz and Mr. Brownrigg were married at 11 o'clock this morning at an impressive ceremony at the St. Louis Cathedral. The bride's uncle, the Rev. Father George Ring, S. J., was the celebrant at the nuptial mass. The altar was adorned with great clusters of Easter lilies and illuminated by cathedral tapers. Palms and greenery banked the chancel.

The lovely young bride, who was this season's first debutante, was given in marriage by her father and was groomed in ivory satin. The bridegroom was made simply on princess lines with a V neckline at both back and front of the bodice and long sleeves of the satin. The draped skirt, folded to a V at the front, was caught at the left side by a long garland of orange blossoms. The satin train, silver-lined, fell from the normal waistline and was weighted with orange blossoms which outlined the circular end. The veil of tulle fell from a band of the orange blossoms to the hem of the gown in front and the entire length of the long train at the back. The bride carried a bouquet of Easter lilies.

Sister Is Maid of Honor. The bride was accompanied to the altar by her sister, Miss Marie Reine Fusz, as maid of honor, and a younger sister, Miss Helen Fusz.

Miss Janet Lawton and Miss Isabelle Bond of St. Louis and Miss Juliana Fraunheim of Pittsburg, Pa., as bridesmaids. Mr. Brownrigg was attended by Donald Anderson as best man and Kimball Battle, Joseph Cabell Breckinridge, Daniel Long and Charles Thatcher, groomsmen.

The bride's attendants were striking gowns of flame red tulle and chiffon. The round necklines of the bodices were draped slightly to the left side, from which fell a shirred jabot of the tulle.

Following the ceremony, a wedding breakfast was held at the St. Louis Woman's Club. Both bride and bridegroom were guests.

The table was decorated with spring blossoms and lighted by ivory candles in silver candelabra.

The Two Wedding Parties. At the wedding of Miss Marie Reine Fusz and Mr. Breckinridge, Mrs. Brownrigg, a bride of this morning, will be her sister's matron of honor; Miss Helen Fusz, maid of honor, and Miss Janet Lawton, Miss Isabelle Bond, Miss Mary Elizabeth Lumaghi and Mrs. Walker Hall of Lexington, bridesmaids.

Lieut. William Breckinridge, U. S. A., of Fort Benning, Ga., will be his brother's best man, and Walker Hall, Richard Jones, Raymond Kirk, James Meloy and Robert Jewell of Lexington, and John Brownrigg of St. Louis, groomsmen.

A reception for 500 guests will follow, also at the home of Mr. and Mrs. Fusz, after which both couple will depart on their wedding trip, the destination of which has been kept secret. Mr. and Mrs. Brownrigg will make their home in St. Louis, and Mr. Breckinridge will take his bride to Lexington to reside.

MRS. FRANCES GANSEY FUNERAL. Services Friday for Vinita Park Real Estate Operator.

Funeral services for Mrs. Frances Gansey, who conducted a small real estate business from her home at 8217 Washington avenue, Vinita Park, where she died of pneumonia Monday night, will be held Friday morning from St. Rita's Catholic Church. Burial will be in Calvary Cemetery.

Upon the death 22 years ago of her husband, John Gansey, a retired merchant, Mrs. Gansey became active in the sale of real estate in Vinita Park, much of the property being in the estate of her husband. She was a familiar figure at the Clayton courthouse and remained active until a few weeks before her death, although 80 years old. She is survived by a niece, Mrs. Anne Mitchell, with whom she lived.

MRS. MARY MILLER BOND DIES. Mrs. Mary Miller Bond, 70 years old, widow of J. H. Bond, U. S. Bond of the Missouri Supreme Court, died at her home in Los Angeles, Cal., yesterday, following a heart attack, according to word received by a son, Thomas Bond of St. Louis. With her at the end were her other children, H. Whitlaw Bond and Mrs. Irene von Schrader. Another daughter, Mrs. Marion Bond Ruddle, died several years ago.

The body will be sent to Bolivar, Tenn., birthplace of Judge and Mrs. Bond. Judge Bond, who died in 1919, is buried there. Since his death Mrs. Bond had spent much of her time in Los Angeles.

## SOCIAL ACTIVITIES

Special to the Post-Dispatch. NEWARK, N. J., Feb. 6.

ST. JAMES' CHURCH here was transformed into a garden this morning for the wedding of Miss Nancy Marie Poulson, daughter of Mr. and Mrs. Charles Webster Poulson of Orange, N. J., to Bernard John Thole, son of Mr. and Mrs. John Thole, 7024 Pershing avenue, St. Louis. Calla lilies banked the altar; palms, ferns and Easter lilies decorated the chancel, and bouquets of Easter lilies were tied at the entrance to the pews of the middle aisle.

The bride was given in marriage by her father. The matron of honor was her older sister, Mrs. James Raymond Berry of Orange, who was Miss Adelaide Cecilia Poulson before her wedding last fall. There were 10 bridesmaids, Miss Josephine G. and Miss Dorothy E. Foster of Orange, young ladies of the bride; Miss Lois Thurston of the same city; Miss Mary J. Henderson of South Orange; Miss Edna Cooney of Arlington, N. J.; Miss Marie Thole of St. Louis, sister of the bridegroom; Miss Ruth Bormann of Newark; Miss Lois Cavanaugh of Brooklyn, N. Y.; and Mrs. William Layton of Scarsdale, N. Y. Francis Linton Gross of St. Louis was best man.

The ushers were the bride's two brothers, Charles and John Poulson of Orange; James R. Berry, also of Orange, her brother-in-law; Morton J. Lucas, John Valle James, William H. Gross of St. Louis; James P. Collins of Port Ethel Allen, N. Y.; W. Marvin Rich of Brooklyn; Dr. Joseph Refsum of New York and Philip G. Berry of Newark.

The bride's gown of rose point lace was made like a sheath over which she wore a sleeveless coat of effect of Salome ivory velvet, trimmed in a long peacock train. Her veil of rose point was worn over tulle and was arranged in soft cap effect held in place with orange blossoms. This veil is a family heirloom and was worn by Mrs. Berry as a bride. Calla lilies and Easter lilies were combined in the shower bouquet which the bride carried. For traveling she chose an ensemble of brown chiffon velvet with hat, slippers and accessories to match. She wore no flowers.

All the bride's attendants were dressed alike in frocks of beige chiffon printed in a design of flame-colored tulips and large green flowers. These were made with deep V-backs, from which were hung circular capes which covered the arms. The skirts were taffeta. The long tight sleeves were finished with deep shirred gauntlet cuffs and the semi-bouffant skirts of chiffon were trimmed with light green tulle. Their hats were of medium size and were developed in red hairbird and tulle. They wore matching slippers and carried arm bouquets of Easter lilies.

Following the ceremony, a wedding breakfast was held at the St. Louis Woman's Club. Both bride and bridegroom were guests. The table was decorated with spring blossoms and lighted by ivory candles in silver candelabra.

The Two Wedding Parties. At the wedding of Miss Marie Reine Fusz and Mr. Breckinridge, Mrs. Brownrigg, a bride of this morning, will be her sister's matron of honor; Miss Helen Fusz, maid of honor, and Miss Janet Lawton, Miss Isabelle Bond, Miss Mary Elizabeth Lumaghi and Mrs. Walker Hall of Lexington, bridesmaids.

Lieut. William Breckinridge, U. S. A., of Fort Benning, Ga., will be his brother's best man, and Walker Hall, Richard Jones, Raymond Kirk, James Meloy and Robert Jewell of Lexington, and John Brownrigg of St. Louis, groomsmen.

A reception for 500 guests will follow, also at the home of Mr. and Mrs. Fusz, after which both couple will depart on their wedding trip, the destination of which has been kept secret. Mr. and Mrs. Brownrigg will make their home in St. Louis, and Mr. Breckinridge will take his bride to Lexington to reside.

MRS. FRANCES GANSEY FUNERAL. Services Friday for Vinita Park Real Estate Operator.

Funeral services for Mrs. Frances Gansey, who conducted a small real estate business from her home at 8217 Washington avenue, Vinita Park, where she died of pneumonia Monday night, will be held Friday morning from St. Rita's Catholic Church. Burial will be in Calvary Cemetery.

Upon the death 22 years ago of her husband, John Gansey, a retired merchant, Mrs. Gansey became active in the sale of real estate in Vinita Park, much of the property being in the estate of her husband. **Our Wide Open Policy and What it Means To You—And All of U.S.**

#### Our Policy of Co-operation

THE splendid progress of the Missouri Pacific Lines in the last five years has been achieved very largely as a result of: First, the aggressive loyalty and endless, tireless effort on the part of our army of employees; Second, the co-operation and support of the public generally and the shipping and traveling public especially; and Third, (made possible because of the former two things) the investment of many millions of dollars of new capital.

The new capital was obtained because of the increasing volume of traffic which justified it. And the increasing traffic is directly traceable to the work of our employees, adequate service and the confidence of the public. Both of these are, in large measure, a result of the "Wide Open Policy" that has been zealously maintained.

There can be nothing secret about the management or operation of railroads because of the regulation and supervision to which they are subjected by numerous governmental and official bodies such as the Interstate Commerce Commission, State Railroad Commissions and similar institutions. But we have not been content to merely say "the information is there and is available if the public wants it."

Ceaseless effort has been made to inform both our thousands of employees and the public. Every phase of the railroad business has been analyzed and broadened. Our own forces are constantly combing our property for general, specific and miscellaneous information that will or might interest our own family members or our patrons and friends. Such information is carefully collected, intelligently analyzed and prepared in easily understandable form, and distributed voluntarily in every possible way.

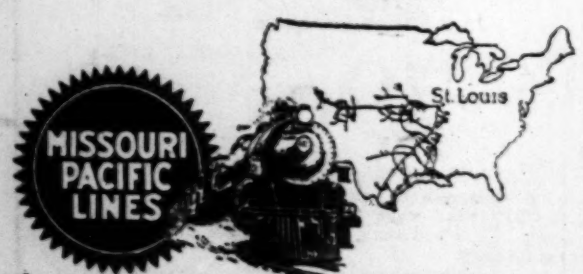

As a result of this policy our own employees are as well informed as any in the world and the public generally knows more about the Missouri Pacific Lines than is known of most such similar institutions. Confidence, co-operation and support have resulted—and those three reactions on the part of our patrons and our own family members have made possible the development of the Missouri Pacific Lines into one of the outstanding railroads of the world.

The Missouri Pacific has welcomed and encouraged the public to come to some of us with any and all questions relating to transportation. If the individual Missouri Pacific man or woman approached doesn't know the answer to your question he will get in touch with or put you in touch with someone in our organization that does know it.

We are most happy in the knowledge of the achievements already accomplished and it is a real pleasure to bestow the credit for the advancement where that credit belongs. We have by no means reached the limit of our development. We expect to continue leading the Parade of Progress.

I solicit your co-operation and support.

*W. A. Rorer*  
President

## MOVIE OF LIVING CELLS SHOWN TO DOCTORS

Photographic Record of Six Months' Growth Is First of Life, Outside Body.

Some 800 St. Louis doctors gathered in the auditorium of the St. Louis Medical Society, 2329 Lindell boulevard, last night, to marvel at the showing of a motion picture film which within 30 minutes revealed on the screen the life, growth and decay of animal cells over a period of six months.

The film, acquired by the American Society for the Control of Cancer from Dr. Ronald Cantl of London, is in three reels. One shows normal cell life, another the life of cancerous cells, and the third the effect of radium on cell life. It was shown last night for the first time west of Chicago. During the week it will be exhibited also to biology classes of St. Louis and Washington universities, and Saturday at an opening meeting of the Wednesday Club.

Dr. Cantl is the first to succeed in photographing cell life outside of the body. He placed living cells, taken from a rabbit embryo, in a synthetic fluid identical with that which surrounds cells in the body. The cells obtained nourishment from the fluid which carried off the wastes. They multiplied and lived in every way as cells do in the body.

Every 15 minutes or half hour, depending on the rate of growth, the film was exposed and one picture of the thousands which make up the film was made. The pictures are enlarged millions of times, and the activity of individual cells is clearly disclosed.

Dr. L. H. Jorstad, director of laboratories at Barnard Free Skin and Cancer Hospital, gave an explanation of the film as it was shown. Dr. Ellis Fischel later discussed the clinical effects of radium on tumors and Dr. L. R. Sante added some observations on the practical application of radium and X-ray in the treatment of malignant disease.

Senator Walsh (Dem.), Montana, asked that the amendment reaffirm the "inviolability of private property" on the seas. He said he did this because word had come to him that the State Department, or some officials of the department, were ready to sidetrack "this traditional American policy" respecting the rights of merchant ships against seizure.

Senator Bingham (Rep.), Connecticut, asked that three airplane carriers instead of one be provided but this also was swept aside without a record vote. The measure stipulates that the airplane carrier be put under way before July 1, 1930.

The bill calls on passage of the bill follows:  
**FOR THE BILL.**  
Republicans—Capper, Couzens, Curtis, Dale, Deneen, Edge, Fess, Gillett, Glenn, Goff, Gould, Greene, Hale, Hastings, Johnson, Jones, Keyes, McNary, Moses, Norbeck, Oddie, Phipps, Pine, Reed of Pennsylvania, Robinson of Indiana, Sackett, Schall, Shortridge, Steiwer, Thomas of Idaho, Vandenberg, Warren, Waterman and Watson—24.

**AGAINST THE BILL.**  
Republicans—Borah, Brookhart, Burton, Frazier, McMaster, Norris and Nye—7.  
Democrats—Black, Dill, Thomas of Oklahoma and Walsh of Montana—4.  
Farmer-Labor—Shipstead—1.  
Total 12.

Of the absentees it was announced the following would have voted for the bill:  
Republicans—Bingham, McLean and Larrabee.  
Democrats—Barkley, Broussard and Fletcher.

The following, it was announced, would have voted against the bill:  
Republicans—Blaine and La Follette.  
Democrats—King, Glass and Wheeler.

**London Press Comment on Passage of Cruiser Bill.**

By the Associated Press.  
LONDON, Feb. 6.—Commenting on passage of the cruiser bill by the United States, the Times expressed a belief that there was no need to hurry further disarmament negotiations.

"Clearly there is time for inquiry, and still more clearly is there need for it," it says. "No British interest is adversely affected by the Senate's decision. To the British mind no rivalry arises or can arise so long as the community of view between the two nations on large issues is for the most part

## EVELYN NESBIT TO WED AGAIN

She Says He Is Prince of Russian Royal Family.

By the Associated Press.  
NEW YORK, Feb. 6.—Evelyn Nesbit, night club hostess and former wife of Harry K. Thaw, today announced her engagement to Alexievitch Romanoff, 27 years old, who claims he is a Prince in the Russian royal family. He now is singing as a basso in a Broadway show.

"I am still the wife of Jack Clifford," said Miss Nesbit, referring to her former dancing partner, "but I expect my divorce very soon and when I get it I am going to become Princess Evelyn."

Miss Nesbit said they met three weeks ago in the Harlem night club where she entertains, and fell in love forthwith.

stands. The heavy traffic also would be objectionable."

Leaders in the movement objecting to the highway proposal on Conway road are Wood, Noyes, John S. Leahy, president of Conway Road Estates, a syndicate holding subdivision land adjacent to Wood's residence; George L. Dyer, a member of that syndicate; Louis Rosen, president of Westwood Country Club; George F. Tiffany, a broker; Sydney M. Shoenberg and others. Representatives of this group attended a recent meeting to discuss the subject and Leahy was made chairman of a chamber committee to work on it. There has been talk of forming a Conway road association but no action has been taken.

spontaneous, in all respects desirable, and, realistically considered, vital to both."

The Chronicle (anti-Government) says: "The United States would never have listened to the more truculent voices in their midst if our Government had not adopted the worst principle of naval rivalry at Geneva, and revealed in its foreign policy a leaning to the method of alliances and competition between groups of Powers."

**Prosecutors Want State Police.**  
By the Associated Press.  
JEFFERSON CITY, Feb. 6.—Prosecuting Attorneys of Missouri, meeting here in annual session yesterday, endorsed the proposal of Attorney-General Shartel for a State Constabulary under control of the Governor. D. M. Cuthbertson, Prosecuting Attorney of Callaway County, was elected president of the association.

## "FLU" CASE No. 1,000,001

It was just a cold yesterday—just one of those "common colds." He thought he'd throw it off in a day or two—but this morning when he started to get out of bed he felt peculiar. Weak. Feverish and chilled by turns. The doctor was called. "FLU!"

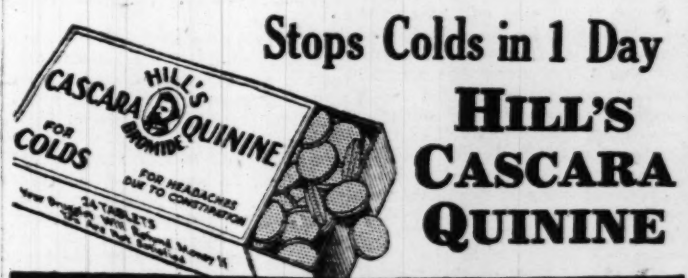

Nearly every case of "flu" starts as a cold. You can exercise a certain amount of caution against colds, but if you've got to work for a living, you can't help exposing yourself to crowds. Therefore, the thing to do is to look with suspicion upon every cold and every sign of a cold.

At the first sneeze, chill or headachy feeling, take Hill's Cascara-Quinine. These famous tablets break up a cold in one day because they do the four necessary things all at one time:

1. Check the Cold Germs
2. Allay the Fever
3. Open the Bowels
4. Tone the System

Each Hill's tablet combines these four effects. That's why Hill's is your safety-first measure when cold germs attack.

Get the red box—all drug-gists.

## DURANT FOUR-FORTY

### A Car with an Impressive Record

Unsupported by extensive advertising, and sheerly through force of commanding value and merit, the Durant Four-Forty has won the unqualified approval of a vast and growing market.

It is doubtful, in fact, if any car in history has depended so exclusively and successfully upon the word-of-mouth good will of satisfied and enthusiastic owners.

In view of the car's low price, people are impressed to learn that Durant Four-Forty advancements include:

Bendix internal expanding 4-wheel brakes . . . Bohn aluminum pistons with in-var steel struts . . . forced feed lubrication . . . 107 inch wheelbase . . . chromium plated ornamental fittings . . . big, quiet and perfectly balanced Durant-built bodies . . . Continental Red Seal motor, of special Durant design and completely rubber-mounted.

## TRAIN ROBBER CAUGHT IN NEW YORK HOLDUP

Captured After Firing Shots and Leaping Off — Escaped From Missouri Prison.

By the Associated Press.  
HERKIMER, N. Y., Feb. 6.—Thomas Malowski, 30 years old, of Buffalo, was arrested near here by State troopers in connection with the holdup of a New York Central train just outside Herkimer early today. According to the troopers, Malowski admitted the holdup. Two watches stolen from passengers and a little more than \$40, the amount obtained in the holdup, were found in his possession, the troopers said.

The robber who held up the passengers in the day coach on the train escaped after firing a volley of shots over the heads of the terrified victims. One shot was fired at him by Dominik Des Franksfort as he leaped from the train while it was moving at a speed of about 35 miles an hour.

According to the story told by Malowski he was captured by troopers after leaving the train and lay beside the tracks for about five hours. Later he made his way into Herkimer and boarded a bus bound for Colbrook. Malowski is said also to have told the troopers that he had escaped from the prison within the last two years and was wanted in this State and in Missouri as an escaped convict.

Malowski's head was badly bruised and his clothing was torn. George Stanfelner, driver of the bus, had become suspicious of the man and asked James Kennedy, a passenger, to notify State police. Police pursued the bus in an automobile and took Malowski off between Middleville and Newport.

Malowski said that he was sentenced from Buffalo in 1925 to 10 years in Auburn for assault, but escaped Aug. 13, 1927, with three other convicts. Later he was sentenced from St. Louis to 10 years in the Missouri State prison but escaped on Dec. 14, 1928, after serving seven months.

In his pockets were found a picture of his mother and sister, and another of a Colored girl. Most of the passengers had been dozing in their seats when a man they had taken to be a passenger suddenly arose, donned a long overcoat and brandished a pistol. He ordered the passengers to raise their hands and then started a systematic search. From one man he obtained \$25, another \$10 and a third said he handed over \$1 in small change. Two of the men who were robbed of money also handed over their watches.

Most of the passengers were foreigners. They crouched behind seats and baggage to escape the bullets fired as the train began to slow down for a stop here. One bullet crashed into a tank of drinking water at the end of the car.

Sentenced to 10 Years for Robbing

Two Kroger Stores.  
Thomas Malowski was sentenced to 10 years in the Missouri penitentiary last March 5 for two Kroger store holdups in St. Louis. He escaped with two other prisoners Dec. 6, by hiding in a freight car that was being switched from the prison to the Jefferson City railroad yards. They kidnaped H. L. Brashear of Jefferson City and forced him to drive them to Eldon, Mo., where his automobile was wrecked. As they were attempting to steal another automobile in Eldon, Brashear escaped.

## COUNTY COMMITTEE TO ADVISE ON EXPANSION OF ST. LOUIS

Report on Problem to Be Made at Chamber of Commerce Meeting Friday.

Recommendations looking toward solution of the problem of expansion by St. Louis will be made in a report of the Metropolitan Committee of the St. Louis County Chamber of Commerce to be submitted Friday noon at a meeting at the American Annex Hotel.

A proposal for annexation of St. Louis County was overwhelmingly defeated by county voters in 1925, although St. Louis gave the necessary two-thirds vote to the proposition. The plan was submitted by a board of freeholders authorized by a constitutional amendment and consisting of equal representation of city and county.

## COUNTY SHERIFF MAKES FIRST SEIZURE OF STILL

A still of 400 gallons daily capacity was in operation last night when Sheriff Lill of St. Louis County and Constable Weiss of Bushong Township went to a shed on the farm of Henry Thalmann on the Sulphur Springs road between Valley Park and Manchester. The still was unattended, however.

Seventy-five gallons of alcohol found in the shed were destroyed. Thalmann, who is 28 years old, was arrested, charged with possession of a still and released on \$1000 bond. He will have a hearing Friday before Justice of the Peace Peters at Kirkwood. Several men, whose names he did not know, rented the shed, he told Lill. The still is the first to be seized by Lill since he took office Jan. 1. No search warrant was necessary, he said, because of positive information concerning its location.

## TWO FIRMS OPERATING 104 STORES COMBINE

J. B. Byars Co. and the Lindsay Co. to Run Under First Name.

Merger of the J. B. Byars Co. and the Lindsay Co., operating 104 chain department stores in 11 states, has been voted at a stockholders' meeting held in St. Louis. The new firm, to be known as the J. B. Byars Co., will be capitalized at \$4,000,000.

St. Louis will be the distributing headquarters and have the principal warehouse of the new company. The present distributing offices of the Byars Co. at 1517 Washington avenue will be moved to larger quarters. General offices will be in New York.

The new company will control stores in Missouri, Kansas, Nebraska, Colorado, Wyoming, South Dakota, Montana, Oklahoma, Texas, Iowa and California. It is planned to make the chain nationwide.

The J. B. Byars Co. had its inception in Rocky Ford, Colo., in 1909, and gradually acquired 82 stores. The Lindsay Co., also founded in 1909, had 22 stores. Under the consolidation plan, the founders, J. B. Byars and W. J. Lindsay, will remain as heads of the new firm, although the active direction of the stores will be in the hands of an executive board. C. B. Ramsey will be in charge of the St. Louis distributing point. Both Byars and Lindsay found-

ed their companies on a chain store plan developed by T. M. Callahan, a former resident of Humansville, Polk County, Mo., who started a chain store in Longmont, Colo., in 1888, expanding his interests as quickly as he could obtain partners, among them Byars and Lindsay.

## DIVORCED BY SECOND HUSBAND, GETS DECREE FROM FIRST

Mrs. Bertha A. Enlow Had Not Been Legally Separated From Mate When She Remarried.

Mrs. Bertha A. Enlow of 4964 Lindenwood avenue, who was divorced by William H. Stein, 3621 Dover place, last June, because she had not been legally separated from her first husband, obtained a divorce from the first husband, George E. Enlow, 16 South Leonard avenue, in Court of Domestic Relations yesterday. She charged desertion.

Enlow appeared as a surprise witness for Stein last May when he testified he married the defendant in 1906 and then left her in 1909, remarrying in 1913 under the impression she had obtained a divorce. The defendant said Enlow's relatives had told her he was dead. She remarried in 1913.

Enlow did not contest his first wife's suit when it was heard Jan. 17. They have two children.

Suit to Force Reappointment.

By the Associated Press.  
CHICAGO, Feb. 6.—The office of every Illinois legislator has been placed in jeopardy by quo warranto proceedings against the entire State Assembly. The action was taken by Circuit Judge Arnold on petition of John B. Fergus, campaigner for State reappointment. Fergus contends the present Legislature is an illegal body because

the State has not been redistricted since the census of 1900.

## Stubborn Cough Quickly Ended by Famous Recipe

Here is the famous old recipe which millions of housewives have found to be the most dependable means of breaking up a stubborn, lingering cough. It takes but a moment to prepare and costs little, but it gives relief even for those dreaded "flu" coughs.

From any drugist, get 2 1/2 ounces of Pinex, pour it into a pint bottle and fill the bottle with plain granulated sugar syrup or strained honey. Thus you make a full pint of better remedy than you could buy ready-made for three times the cost. It never spoils and tastes so good that even children like it.

Not only does this simple mixture soothe and heal the inflamed throat membranes with surprising ease, but also it is absorbed into the blood, and acts directly upon the bronchial tubes, thus aiding the whole system in throwing off the cough. It loosens the germ-laden phlegm and eases chest soreness in a way that is really astonishing.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a refined, palatable form. Nothing known in medicine is more helpful in cases of distressing coughs, chest cold, and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

for Coughs

## Chicago and Return

**\$7 \$12**

Feb. 15 and 16

Leave St. Louis at and after 9:00 pm. Friday or Saturday, including midnight trains. Tickets good in coaches and chair cars only. Children half fare. No baggage checked.

Saturday and Sunday in Chicago

Returning, leave Chicago Saturday night or Sunday night (Feb. 16 or 17), at or after 9:00 pm., including midnight trains.

Get further information, reservations and tickets from—

**Chicago & Alton Railroad  
Illinois Central Railroad  
Wabash Railway**

February 16

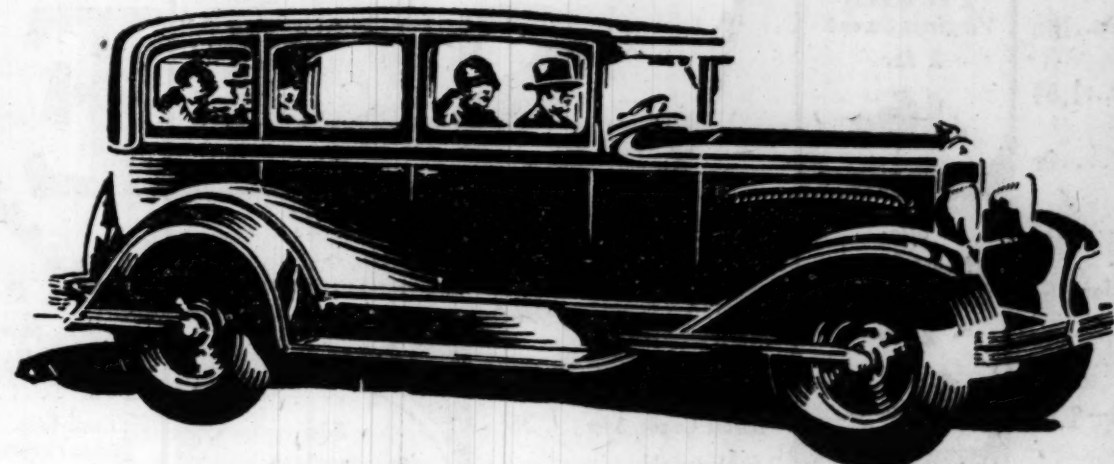

Leave St. Louis on all trains after 7:00 am. Saturday, February 16, including midnight trains. Good in parlor and sleeping cars on payment of usual seat or berth fares. Children \$6. Baggage checked in usual way.

Return Limit

March 3

Good leaving Chicago on any train up to and including 12:05 am. March 4.

# At New Lower Prices the PLYMOUTH dollar BUYS FAR MORE . . .

## In FULL SIZE. In ECONOMY In Original Style and Beauty

WITH savings of from \$25 to \$40 on the most popular body styles, Plymouth now looms up more sharply than ever as the greatest dollar value in the lowest-priced field.

Quality and luxury of equipment are unchanged.

All the big-car size and roominess which set Plymouth apart in its price class—all the rugged construction and inherent economy

of Plymouth's high-compression engine—all its unique Chrysler style and beauty—come to you intact—but at substantially lower cost.

We could quote endless evidence of Plymouth's greater value—readily seen in such features as weatherproof, hydraulic 4-wheel brakes, full-pressure lubrication, body impulse neutralizer and impressive Chrysler power and smoothness.

# HELD FOR ROBBERY, ADMITS BOOTLEGGING

Gangster Confesses Lesser Offense to Avoid Extradition for Illinois Mail Theft.

Milford Jones, Cuckoo gangster, testified before United States Commissioner Atkins today that he had made monthly trips to Detroit, Mich., to get liquor in case lots which he brought back to St. Louis by train in suit cases.

The testimony was given by Jones in a hearing at which he opposed extradition to Springfield, Ill., for trial in connection with the \$15,000 Collinsville mail robbery of Jan. 27, 1925. Jones had described himself as the manager of the Alamo Cabaret, Fourteenth and Chestnut streets, and was asked if he had ever been in Detroit.

"Yes," he replied. "I went up several times to get whisky for the cabaret."

"Were you successful?" "Yes, I went up on the Washburn and got two cases at a time. I brought it back in suit cases about once a month. It was cheaper and better whisky than I could get in St. Louis."

Jones admitted he had met Law-

rence Daugherty, a Government witness in the robbery cases, in Detroit, but denied that he had met Daugherty in Springfield, Ill., the day after the robbery, and had told him he was one of the robbers. Jones averred that he had never been in East St. Louis or any of the nearby communities until 1926, when he got a job at the Madison County dog track. He denied he was acquainted with the Shelton brothers or any of the Birger gangsters named in the robbery, maintaining the charges against him were "framed" by Daugherty, who is now in prison.

Chief of Detectives Kaiser, Fred Reuter, chief post office inspector here, and two Chicago inspectors were questioned by the defense to show that Daugherty's statements had conflicted.

## SPARROW RAISED AMONG CANARIES SINGS LIKE ONE

The Rev. Hubert Gruender, psychology professor at St. Louis U., tries experiment.

A familiar experiment, that of teaching a sparrow to sing like a canary, has been performed by the Rev. Hubert Gruender, S. J., professor of psychology at St. Louis University.

This unusual quality in the sparrow is instilled through placing him from infancy in the company of canaries. Raised in this environment, the sparrow, instead of mak-

ing the unmusical vocal noises of his kind, sings, or tries to sing, like a canary. Both birds are of the finch species.

Last July a fledgling sparrow was brought to Father Gruender by a friend in Florissant. Raised in proximity to two German chopper canaries, the sparrow soon tried to warble as they did and achieved fairly good results.

Father Gruender thinks a sparrow can sing as well as a canary if given the proper start, and next will have one of his canaries hatch a sparrow's egg, so that he may control the sparrow's development from birth. He believes that musical sense is largely a matter of education.

## WIFE OBJECTS TO BARBER'S TALKING TO WOMEN PATRONS

She Files Divorce Suit, But He Obtains Decree on Cross Bill for Indigents.

The women whose locks were bobbed by Thomas Cox appreciated his conversational talents, but his wife didn't, and she brought suit for divorce. He filed a cross bill alleging general indignities, and was granted a decree today by Circuit Judge Taylor when Mrs. Cox failed to prosecute her suit.

"I told her all about the women whose hair I bobbed," Cox testified. "Of course I had to jolly them a bit, just to keep them satisfied so they'd come back, and they

jollied me. When I told my wife about it, she got mad."

The judge inquired why Cox didn't discuss other subjects with his wife. "There was nothing else to talk about," the barber replied. Cox lives at the Belcher Hotel, his former wife at 1534 North Eighteenth street. They were married in August, 1927, and separated last December.

## Don't Let That Cold Turn Into "Flu"

That cold may turn into "Flu," Grippe or, even worse, Pneumonia, unless you take care of it at once.

Ruber Mustero, the congested parts and see how quickly it brings relief as effectively as the messy old mustard plaster.

Mustero, made from pure oil of mustard, camphor, menthol and other simple ingredients, is a counter-irritant which stimulates circulation and helps break up the cold.

You will feel a warm tingle as it enters the pores, then a cooling sensation that brings welcome relief.

Jars & Tubes  
**MUSTEROLE**  
WILL NOT BLISTER  
Better than a mustard plaster

## When Skinny Men Grow Manly

Five or 10 Pounds of Flesh on Their Bones Make a Lot of Difference.

Out in the country they used to say "Just as thin as a fence rail," and after Jim had somehow managed to grow more shapely and add more weight they used to say:

"Jim's a real good looking fellow since he took on flesh."

And that's the way it goes all over the world; the skinny, gaunt man can never be attractive or look manly until he puts more flesh on his scantily-covered bones.

Many thin men have gained in weight and at the same time in vigor and attractiveness—no thin man can do it unless he tries.

McCoy takes all the risk—Read this ironclad guarantee. If after taking 4 sixty-cent boxes of McCoy's Tablets or 2 One-Dollar boxes any thin, underweight man or woman doesn't gain at least 5 pounds and feel completely satisfied with the marked improvement in health—your money will be returned.

Just ask for McCoy's Tablets at Wolff-Wilson Drug Stores or any drug store in America.

## Relief from Gas Stomach Pains Dizziness

The doctors tell us that 90 per cent of all sickness is due to stomach and bowel troubles. You can't be well if your digestion is bad; you are likely to get sick unless you relish food and digest it properly.

Tanlac has a wonderful record as a relief from digestive troubles, even those of years' standing.

Mrs. J. M. Roth, of 1200 W. 14th St., Sedalia, Mo., says: "For 15 years I suffered from stomach trouble, constipation and nervous headaches. Tanlac relieved me of the headaches and I gained weight. I ate more and enjoyed my food."

If you suffer from gas, pains in the stomach or bowels, dizziness, nausea, constipation, or torpid liver; if you have no appetite, can't sleep and are nervous and all run down, you need Tanlac. It is good, pure medicine, made of roots, herbs and barks. Get a bottle from your druggist today. Money back if it doesn't help you.

# Sour Stomach

Sweetened instantly

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain departs. You are happy again in five minutes.

Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 25c and 50c bottle—any drug store.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of the Charles H. Phillips Chemical Company and its predecessor, Charles H. Phillips, since 1875.

## THE BEST WAY TO WHITEN TEETH

A single application of Phillips' Dental Magnesia Toothpaste will bring glistening, white teeth and a sweet breath.

Prove it at our expense. Write The Phillips Co., 117 Hudson St., New York, N. Y., for free study tube.

## WAYS UNEMPLOYMENT TO USE OF MACHINERY

Chicago U. Secretary Tells Provident Association Devices Are Replacing Men.

Unemployment is on the increase because of the growing mechanical efficiency of industry, declared Rowland Haynes, secretary of the University of Chicago, at the annual meeting of the Provident Association last night at the Downtown Y. M. C. A. Unskilled workers, he said, are losing their jobs due to innovations in industry. Better educational and health facilities are needed, among other things, in industry, Haynes explained.

The Provident Association needs the financial as well as the moral support of the community, said Samuel C. McCluney, president, in his annual address. He stressed the need of publicity for agencies of the Community Fund, of which the association is a part. McCluney described the employment situation as "chaotic." A committee of the association, made up of experienced business men,

is studying the problem from the standpoint of the employer and the worker, he said. He urged members of the association to assist city officials in arousing sentiment for larger appropriations for social relief work.

"In six years the work done by the Provident Association has increased 115 per cent," said E. G. Steger, general manager. "Its income, however, has increased only \$2 per cent and its personnel 61 per cent."

In 1923, he pointed out, the association served 8549 families, or about 27,500 individuals, equalling the population of Alton, Ill. The association spent \$306,956 in 1923, compared to \$174,092 in 1923, he said.

These directors were elected to serve until Dec. 31, 1931: Robert McKittick Jones, Harry B. Wallace, E. A. Brooker, Henry P. Mueller, George O. Carpenter, William Igoe, Charles H. Six, Dr. Harry Alexander, Volney Turner and Horton Watkins. John S. Leahy was named to fill a vacancy for a term ending Dec. 31, 1930.

Named to Board of Assessors. Daniel O'Connell of East St. Louis has been appointed to serve the unexpired term of Louis G. Miller of Belleville on the St. Clair County Board of Assessors at Belleville. Miller resigned because of illness. O'Connell was formerly a member of the board.

## Held for Fatal Stabbing on Ship.

By the Associated Press. HAVRE, France, Feb. 6.—John Bert Fikes, 23 years old, a seaman of the American Steamer Endicott, is in jail here charged with stabbing to death George A. Leonard, 32, of San Francisco, the boat's chief steward. Fikes was said to

have kicked Leonard while the latter was in his bunk last Friday night. He was said to have had a grudge against the steward.

# Since the "Talkies" came, Hollywood is stronger than ever for Old Golds

WALLACE BEERY transport pilot No. 3298, now appearing in "Tong War" tells how the movie stars are guarding their throats with OLD GOLDS.

"A year or so ago, Hollywood didn't think much about its vocal chords or its voices. We were all in the *silent* drama then.

"But the coming of the 'Talkies' has changed things. Lovely stars, leading men, 'heavies' and ingenues are guarding their throats with zealous care... and smoking OLD GOLDS.

"It didn't need the 'Talkies' to win me to OLD GOLDS. I've been smoking them ever since they came to Hollywood, two years ago. But it's an added satisfaction to know they are kind to the voice, when the voice has assumed a new importance!"

(SIGNED) *Wallace Beery*

## Why not a cough in a carload?

OLD GOLD Cigarettes are blended from HEART-LEAF tobacco, the finest Nature grows. Selected for silkiness and ripeness from the heart of the tobacco plant. Aged and mellowed in a temperate of mid-July sunshine to insure that honey-like smoothness.

## STORM IMPERILS BYRD'S SHIP IN BAY OF WHALES

Bark City of New York  
Leaves Harbor for a Time  
to Escape Being Bumped  
on Ice by Wind.

By RUSSELL OWEN.  
(Copyright, 1929, by the Post-Dispatch and New York Times. World Rights Reserved.)  
This story is published exclusively in the Post-Dispatch. All news articles from members of the Byrd party or expedition assigned to it will appear in the Post-Dispatch in this city.

**BAY OF WHALES, Antarctica.**  
Feb. 5.—(By Wireless—Delayed.)—After a short jaunt out to sea right before last to avoid being bumped on the bay ice under our lee in a strong northerly wind, the City of New York is back again, being unloaded of the materials left aboard by the Eleanor Bolling.

Everything left on the barrier edge after the cliff broke off and fell on us has been hauled to the base safely, and it should take only a few days to get ashore the large house, gasoline and food on this ship.

The Ford airplane fuselage, which had been taken to safety far back from the barrier edge, was hauled in by 27 dogs, a novel load for these husky little toilers. The entire 27 could easily have been put in the cabin of the plane.

It was hard pulling, but with men pushing up the snow hills it was accomplished in a few hours. The barrier trail was so smooth that even a topheavy radio transmitter weighing nearly 1000 pounds was taken in easily by one driver and seven dogs.

The old trail over the bay ice is being used again, and as the ship is moored now to old bay ice several feet thick, there is no chance of the men going in near the ship. Some of the cracks near the inlet on which our base is situated have opened up recently. This was because of the movement of the bay ice or some unexplained pressure. However, they can be bridged. The weather today is perfect after the storm and the sun shines as warmly as on a spring day at home. But when the sun gets low it gets cold and ice forms near the ship.

**How to Darken  
Gray Hair**  
By BERYL WEST

I repeat what I have often said—there's no excuse today for a woman submitting to gray hair and looking older than she feels. Gray, faded or streaked hair may be so perfectly restored to color that it need be only your own boudoir secret. Nothing more or less than a mixture of sage tea and sulphur is the magic.

One may either prepare the mixture at home, or, as most people prefer to do, buy it already prepared and ready to use. Wyle's Sage & Sulphur is the name of the ready-to-use preparation, and since all druggists sell it at 75¢ a bottle, there is really no need of going to the trouble of making it yourself.

You simply moisten a comb or soft brush with it, and draw it through the hair, one strand at a time. One application banishes the gray and one or two more completely restores your gray, faded or streaked hair to its original color. There is no artificial dyed look. The whole effect is one of perfect naturalness. My readers would be surprised if they knew of the thousands of men and women who use this preparation.

**BOLLING, ON WAY FROM THE BAY OF WHALES TO DUNEDIN, N. Z., Feb. 5.**—For the first time in history the United States mail flag has been flown south of latitude 75 south. It flew from the mast of the steamer Eleanor Bolling, the supply ship of the Byrd Antarctic expedition. On Jan. 27 the Eleanor Bolling, delivered mail to the bark City of New York. Commander Byrd's flagship, in the Bay of Whales, and to Little America, his base on the ice barrier of the Antarctic fringing the bay, in latitude 78:55 south, longitude 162:30 west. On Saturday the Eleanor Bolling left the Bay of Whales bearing mail from the members of the Byrd expedition to their families and friends back home and today it is stopping alongside various whalers in the Ross Sea, in latitude 74 south, longitude 159 west, picking up mail for various parts of the world. The mails will be promptly trans-shipped upon the arrival of the Eleanor Bolling at Dunedin.

**CONFEREES ARE DEADLOCKED OVER \$24,000,000 DRY FUND**  
Controversy Threatens to Kill Deficiency Appropriation Bill; Negotiations End.

WASHINGTON, Feb. 6.—Death of the deficiency appropriation bill with its controversial \$24,000,000 increase in prohibition enforcement funds was regarded as a possibility as conferees of the Senate and House ended negotiations in a stubborn deadlock over the dry fund.

At the second conference yesterday, spokesmen of the Senate insisted again that the House vote on the \$24,000,000 fund added to the bill by the Senate. House conferees reiterated that the House by a majority of 99 had refused to vote on the dry fund and had demanded a conference upon it.

Chairman Warren of the Senate Appropriations Committee indicated after the collapse of the conference that he would make a report on the situation to the Senate at an early date.

The increase was voted to the bill by the Senate by an overwhelming majority on motion of a dry, Senator Harris (Dem.), Georgia. It was done over the protest of Secretary Mellon, who said the Government was not ready to use the money. Before the House acted, the Secretary wrote another letter declaring the Senate amendment—that who was empowered to use the money—was not ready to use the funds could be allotted to only a part of the agencies charged with dry law enforcement.

**MRS. BARNETT AGAIN REFUSES TO WAIVE IMMUNITY RIGHT**

Senator Then Declines to Question Her in Indian Inquiry; Attorney to Be Heard.

WASHINGTON, Feb. 6.—Mrs. Jackson Barnett, white wife of the wealthy Creek Indian who came into a fortune when oil gushed from his Oklahoma farm, stood on her constitutional rights again yesterday and declined for a second time to waive immunity before a Senate Committee investigating her marriage.

While her bronzed and smiling husband loitered in an ante-room Mrs. Barnett heard her attorney read a statement in which he asserted that right and announced that while she was willing to testify without oath she refused to tell anything about the marriage that might incriminate her. "That's all there is to it then," Senator Wheeler (Dem.), Montana, declared, and the hearing was adjourned for the day as the woman's attorney, Charles B. Rogers of Tulsa, Ok., was reminded that he had promised to give the committee his version of the wedding and the events that followed it. He is expected to testify probably next week.

**FLU IN FRANCE SPREADING; NURSES FROM BRITAIN CALLED**

Shortage of Attendants Make Emergency Measure Necessary; Death Rate Grows.

By the Associated Press.  
PARIS, Feb. 6.—France's influenza epidemic has become so serious that it has been found necessary to import nurses from England.

The procedure ordinarily would be attended with boundless red tape, but much of this has been dispensed with to facilitate treatment of cases in Paris hospitals.

One hospital authority today estimated about one-fifth of the Paris population was afflicted. Thus far most of the cases have been mild, but in the past two days there has been an increase in pneumonia and bronchial symptoms following influenza. There has been a corresponding increase in the death rate.

**5078 TONS OF PAPER ON SHIP**  
Cargo of Steamer Unloaded at New Orleans Thought to Be Record.

Special to the Post-Dispatch.  
NEW ORLEANS.—The steamship Corner Brook recently discharged at New Orleans over the public wharves a cargo of 10,155,000 pounds, or more than 5078 net tons, of newspaper paper, the largest cargo of this character ever received at New Orleans, and a cargo thought to constitute a record in its class. The Corner Brook arrived at New Orleans Jan. 22 from Cornerbrook, Newfoundland, where it received its cargo. There were 10,917 rolls of the paper, of which 8971 were consigned to New Orleans newspapers and 1946 for trans-shipment by barge line to Memphis.

This cargo was equal to the average month's receipts of import newspaper at New Orleans. Large quantities of this commodity are received regularly for local consumption and for shipment by rail or barge line to interior points in the Southwest or in various sections of the Mississippi Valley.

## "ALIMONY GREATEST CURSE IN AMERICA"

Chicago Judge Lectures Woman  
Defendant Who Asked  
for Money.

By the Associated Press.  
CHICAGO, Feb. 6.—Alimony was described by Judge William N. Gemmill in the Superior Court today as "the greatest curse in America."

Judge Gemmill's remark was occasioned by the request of Mrs. Marnie Stebbins for temporary alimony from Charles Stebbins, taxicab company superintendent, who is suing her for divorce on charges of drunkenness.

"Alimony," Judge Gemmill declared, "mere acts as an incentive to divorce. The women feel that all they have to do is come into court and ask it to give them money and they can make the man pay for the rest of his life."

"If it were not for alimony there would not be nearly so many divorces in the country, for women would not be so ready to sue for divorce on meaningless grounds or no grounds at all, if they knew that they would not get a large alimony judgment from their husbands."

"A man marries, expecting a home, companionship and affection. He works hard to provide a home for his wife and when he loses this, he should get some compensation for that loss rather than be expected to pay the rest of his life for it."

Where there are no children and husband and wife cannot agree, Judge Gemmill continued, they should stand before the court as equals and the woman should not receive alimony from her husband if she owes no obligations to him. Judge Gemmill ended his lecture by granting Mrs. Stebbins \$5 a week, which he described as "a purely nominal sum."

**Tommy Gibbons Builds Church.**  
By the Associated Press.  
ST. PAUL, Feb. 6.—A \$50,000 church is to be erected at Osakis, Minn., with funds provided by Tommy Gibbons, retired heavy-weight boxer. Gibbons announced today that a contract for construction of the church had been awarded. It will be finished next August and will be known as the church of the immaculate Conception, a gift from Gibbons and his wife. The Gibbons' summer home is at Osakis, a lake resort.

**Flu Cases Continue to Decrease.**  
By the Associated Press.  
WASHINGTON, Feb. 6.—Continued decreases in influenza deaths and cases were shown in reports today to the Public Health Service and the Census Bureau. A total of 24,998 cases in 42 states, the District of Columbia and New York City was the lowest reported since Dec. 1.

Sixty-five cities reported a total of 498 deaths from influenza and 1728 from pneumonia in the week ending Feb. 2, compared with 745 from influenza and 2068 from pneumonia the preceding week.

**Congress Passes Bill for Bridge.**  
WASHINGTON, Feb. 6.—A Senate bill to authorize Illinois and Iowa to bridge the Mississippi River between Carroll County, Ill., and Jackson County, Iowa, was passed by the House yesterday and sent to the President.

It will be finished next August and will be known as the church of the immaculate Conception, a gift from Gibbons and his wife. The Gibbons' summer home is at Osakis, a lake resort.

**Flu Cases Continue to Decrease.**  
By the Associated Press.  
WASHINGTON, Feb. 6.—Continued decreases in influenza deaths and cases were shown in reports today to the Public Health Service and the Census Bureau. A total of 24,998 cases in 42 states, the District of Columbia and New York City was the lowest reported since Dec. 1.

Sixty-five cities reported a total of 498 deaths from influenza and 1728 from pneumonia in the week ending Feb. 2, compared with 745 from influenza and 2068 from pneumonia the preceding week.

**Congress Passes Bill for Bridge.**  
WASHINGTON, Feb. 6.—A Senate bill to authorize Illinois and Iowa to bridge the Mississippi River between Carroll County, Ill., and Jackson County, Iowa, was passed by the House yesterday and sent to the President.

should stand before the court as equals and the woman should not receive alimony from her husband if she owes no obligations to him. Judge Gemmill ended his lecture by granting Mrs. Stebbins \$5 a week, which he described as "a purely nominal sum."

**Tommy Gibbons Builds Church.**  
By the Associated Press.  
ST. PAUL, Feb. 6.—A \$50,000 church is to be erected at Osakis, Minn., with funds provided by Tommy Gibbons, retired heavy-weight boxer. Gibbons announced today that a contract for construction of the church had been awarded. It will be finished next August and will be known as the church of the immaculate Conception, a gift from Gibbons and his wife. The Gibbons' summer home is at Osakis, a lake resort.

**ADVERTISEMENT**

**FINE FOR CHILDREN!**

Give them a good start in life, with happy smiles and healthy little bodies. Children need a mild corrective occasionally to regulate stomach and bowels. Dr. Edwards' Olive Tablets are a safe vegetable compound mixed with olive oil. They tone up and regulate the eliminative tract. Not a nasty cathartic or a habit-forming medicine, but a safe pleasant remedy for constipation, sour stomach, torpid liver, bad breath and similar disorders. Dr. Edwards, a widely known family physician of Ohio, prescribed these tablets for many years in his own practice. Children from six years up are greatly helped by them. Like to take them. Recognized by their olive color. Dr. Edwards' Olive Tablets overcome those irritable spells that many children are subject to, keep their bodies in active healthy condition, skin clear and eyes bright with the light of perfect health. 15c, 30c and 60c sizes.

**Throat sore? take TONSILINE**

Laxatives will not cure croup nor will corn plasters relieve sore eyes. Neither can hit or miss remedies recommended for nearly all the ills of mankind be depended upon to correct sore throat. This condition calls for prompt, careful treatment. Use only Tonsiline, for over 30 years recommended, sold and used successfully for sore throat and nothing else. Your druggist will tell you there is nothing better. 35c, 60c. Hospital size \$1.00.

**WOMAN RESIGNS POST AS RAILWAY MANAGER**

Miss Katherine Wilson of Alton for Years Directed Terminal at Alton.

K. E. Wilson, assistant to the vice president of the Illinois Terminal Railway, a position which carries the duties and responsibilities of a general manager, today announced that she had resigned and would be Miss Katherine Wilson again.

For many years Miss Wilson had concealed her sex under an initial. Residents of Alton and those who came on business to the Illinois Terminal Building knew that the 50-mile belt line was run by a woman, but those who saw only the business-like signature on the railroad's correspondence or consulted the Railway Guide, assumed that K. E. Wilson was a man. Miss Wilson never bothered to set them right.

Born in Alton, Miss Wilson went into the employ of the railway in 1899 as stenographer to H. H. Ferguson, vice president in charge. At the time it was a six-mile line serving one industry. Successively chief clerk and car accountant, Miss Wilson rose to the highest position the small road could offer.

As the years passed, Ferguson came more and more to pass operating responsibilities to her until she was recognized as the general manager of the line. The belt line expanded to Edwardsville and Farmosa, and Miss Wilson's duties grew. To be near her work she set up an apartment in the Terminal Building and has lived there constantly.

Eight months ago, the belt line was sold to the Illinois Power and Light Corporation, which controls the Illinois Traction System operating the McKinley Lines into St. Louis. Ferguson announced an intention to withdraw and Miss Wilson decided to do likewise.

Miss Wilson said today that she would remain at her post for a few weeks, withdrawing when Ferguson does. She laughed at a report that the former owners of the property had given her approximately \$100,000 in appreciation of long services, admitting, however, that she had been "remembered." She plans to go into some other business, although she has not decided, at this time, what line she will follow.

**BILL FOR STATE POLICE FORCE GETS UNFRIENDLY RECEPTION**

Backers Unable to Explain Provisions at Committee Session, and Obtain Continuance.

Special to the Post-Dispatch.

JEFFERSON CITY, Feb. 6.—The bill to establish a State police force, sponsored by Attorney-General Shartel, encountered an unfriendly reception in a hearing before the House Judiciary Committee last night, and its backers were forced to seek a continuance of the hearing after attempting for 15 minutes to explain the bill's provisions, under a barrage of questions.

Representatives of labor unions had asked for an opportunity to be heard upon the bill, but did not appear. Their absence was made the basis of a continuance, to a date to be set later. Sponsors for the bill said it would have been useless, however, to have attempted to press the bill before the committee last night.

Veteran attendants at committee meetings commented upon the unusual air of hostility shown by committee members toward the bill. Attorney-General L. Cunningham started to make an explanation of the purpose of the bill but made little progress. Immediately he received a volley of hypothetical questions from the committee members, principally Representatives Heege of St. Louis County, Wren of St. Louis, Snider of Lewis and Clark of Jasper.

**PLANS PADLOCKING NUISANCES**

County Prosecutor to Invoke Provision of State Law.

A section of the State prohibition law providing for the padlocking of buildings housing nuisances will be invoked by Prosecuting Attorney Harry Castlen of St. Louis County, he announced today. Several cases proceeding under this section have been prepared, he said.

"If owners of buildings which are rented to habitual violators of the law are habitually reminded of this section, the higher rent they are able to charge such tenants will not seem so attractive, and moral conditions will be improved," he said.

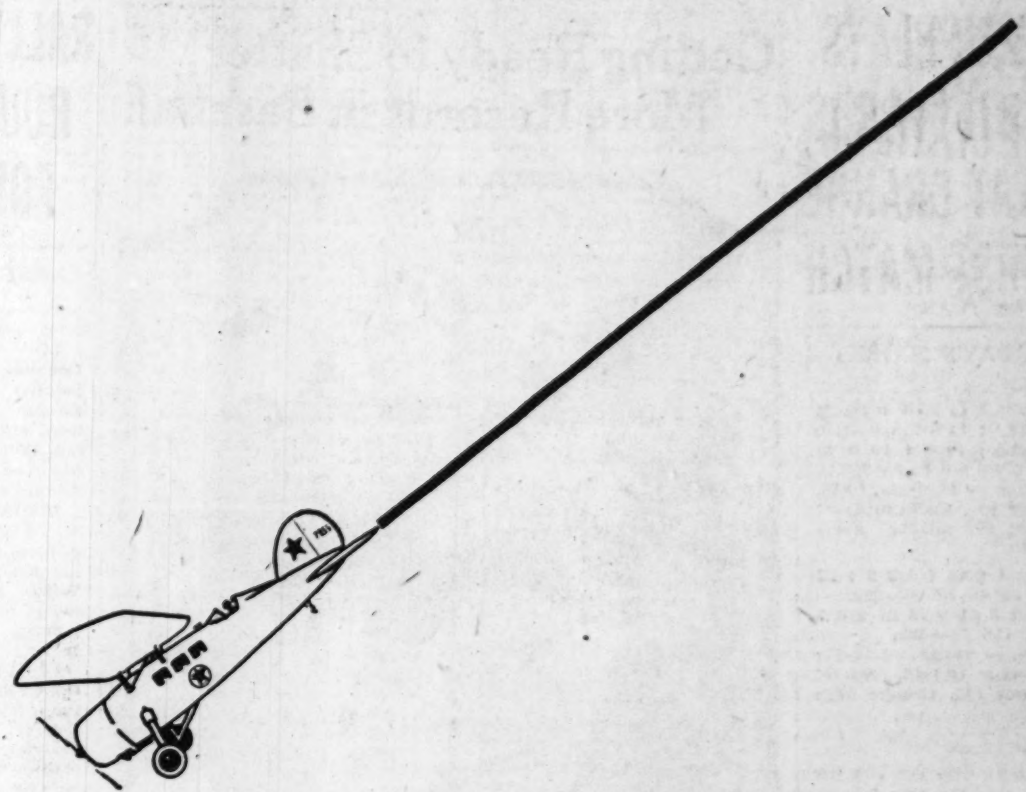

**Hagen Denies Golf Is Profitable.**

By the Associated Press.

LOS ANGELES, Cal., Feb. 6.—Golf is all right for pleasure but not so good for making money, Walter Hagen, professional, told Superior Court Judge McComb here yesterday. At the time he made a separate maintenance agreement with his wife, Mrs. Edna Hagen, under which she seeks to collect \$8000, he was making considerable money selling Florida real estate, he said, but added that he lost that job and now must depend on his golf income. He had asked that the agreement be set aside, but the court ordered Mrs. Hagen's suit brought to trial.

**To Discuss Drive Through Park.**

Members of the Morganford Business Association will meet tomorrow night at 4302 Junata street to discuss again the proposed extension of Morganford road through Tower Grove Park to Tower Grove avenue. Business vehicles are barred from the park drives, and business men on both sides of the park have made several unsuccessful efforts to obtain right of way for their trucks over a north-and-south drive through the center of the park.

Woman, 104, Dies of Influenza.  
WHEELING, W. Va., Feb. 6.—  
Mrs. Anderson, 104 years old,  
is dead here from pneumonia, fol-  
lowing influenza. Mrs. Anderson,  
who had resided in the same house  
for 55 years, outlived seven sons  
and two daughters, a daughter,  
Mrs. James Tougarden, with whom  
she resided, alone surviving.

### WHOLE FAMILY ENJOYS GOOD HEALTH

Everyone Knows How to Ap-  
preciate It; Found the  
Right Medicine at Last to  
Bring Health and Strength.

Hundreds and hundreds running  
into thousands and they continue  
to call for it, the great natural  
medicine, the old reliable family  
medicine which has created a de-  
mand so enormous that the Lab-  
oratory is unable to fill orders on  
time. Miller's Herb Extract, bet-  
ter known as "Herb Juice" is now  
a household word in thousands of  
St. Louis homes by reason of its  
superior merit and health restoring  
power. Every user tells a friend  
of neighbor, that accounts for the  
widespread popularity of this now  
famous Herb medicine in helping  
sick people to enjoy better health.

My whole family has been  
wonderfully benefited by using Miller's  
Herb Extract. We have spent hun-  
dreds of dollars for medicines that  
did us practically no good at all,  
but since using about seven bottles  
of the Herb Extract Remedy, ev-  
eryone in the family now enjoys  
good health; we have good friends  
to rejoice over our improved  
condition of health, giving this won-  
derful remedy all the credit for it.  
The above statement from Mrs. G.  
Schreiber, well known and popular  
St. Louis woman, who resides at  
1951 Wren ave., proves beyond a  
doubt that this family, like so  
many others, got the right medi-  
cine at last to remove the cause  
of ill health. "Your Herb Extract  
Remedy is so thorough acting, so  
mild, yet effective in removing the  
cause of ill health that I believe  
it is the most reliable and most  
dependable one can buy for the  
family. I have seen every one in  
my family use it, and it does one  
good to see their loved ones get-  
ting rid of their aches and pains  
and being put in a condition where-  
by they can enjoy good health at  
its best. That's what I've seen  
with the using of Miller's Herb  
Extract. It completely overcomes  
chronic constipation and indiges-  
tion, stops sour, gassy stomach, re-  
stores the liver to a normal work-  
ing condition, removes the cause  
of faulty elimination, regulates the  
bowels, tones up the entire system,  
bringing renewed strength and en-  
ergy, making one feel like a new  
person. Such has been the happy  
experience with me and mine. I  
firmly believe that this thousand  
of dollars to say nothing of a lot  
of unnecessary suffering. I would  
advise every father or mother to  
get a bottle and keep it in the  
house for the children—it's good  
for both young and old alike."  
Hundreds call daily to see the  
Herb Juice Medicine Company's  
special representative who has ex-  
tended headquarters at Wolff-  
Wilson Drug Store, Seventh and  
Washington, to learn more of this  
great medicine that is bringing  
health and happiness to so many  
St. Louis citizens.

MRS. G. SCHREIBER.

### SHOP MEN EXPECT INCREASE

HANNIBAL, Mo., Feb. 6.—An  
increase in pay of shop crafts of  
the Burlington system, the amount  
of which was not announced, is ex-  
pected soon, it was indicated, fol-  
lowing return of shop men from  
Chicago where a conference was  
held with officials of the company.  
A final settlement of the scale is  
expected late this week. The in-  
crease will affect all shop crafts  
including machinists, blacksmiths,  
boilermakers, electricians, sheet  
metal workers, pipe fitters and car-  
men.

Attending the conference were  
J. A. Dreyer, general chairman,  
machinists; W. C. Turner, general  
chairman, blacksmiths; D. H.  
Woodhull, general chairman, boil-  
ermakers; J. C. Rowland, general  
chairman, electricians; Ernest  
Greenhalgh, general chairman,  
sheet metal workers; L. M. Ferrier,  
general chairman, car men, and  
several company officials.

### WIFE'S POOR COOKING

### NO DIVORCE EXCUSE

Baker Gives Vivid Description  
of Culinary Blunders—Judge  
Says Try Again.

The law does not require that a  
difficult wife be a good cook, Cir-  
cuit Judge Taylor held yesterday  
in refusing a divorce to Joseph  
Marrik, a baker, of 4000 Winne-  
bago street.

Marrik, as a culinary authority  
himself, is perhaps more exacting  
than the ordinary husband. The  
general indignities which he al-  
leged in his suit were all cooking  
outrages, and included the charge  
that his wife made dumplings that  
stuck to the top of his mouth.

Her coffee was a mystery, the  
more cream he put in it, the  
blacker it got, he said. She was  
inexpert in cleaning a bowl, her  
steaks were too well done and her  
goulash was so unpalatable that  
"no dog would eat it," he testified.

In desperation, he appealed to  
his mother and sister who some-  
times helped his wife at her cook-  
ing but regardless of their assist-  
ance and the fact that he ate only  
one meal at home a day, he grew  
ill. A doctor told him that he was  
undernourished.

Mrs. Josephine Marrik, 4003  
Winnebago street, had filed a cross  
bill alleging that her husband  
spent most of his time at his  
mother's, 4006 Winnebago street.  
On the witness stand she said her  
husband was right when he said  
she was not a good cook.

She had tried her best, and each  
of her mistakes had been made  
only once, she testified. Judge  
Taylor asked her if she was quite  
sure she wanted a divorce and  
when she answered that she was  
not, he denied both petitions. Ad-  
dressing Marrik, the Court said:

"The law doesn't require a wife  
to be a good cook. Try her a little  
longer. She may turn out to be an  
excellent cook. It takes most men  
a lifetime to realize what good  
cooks their wives are."

### KILLS RECORD - SIZED ELAND

Californian Shoots Antelope Having  
33 1/2-Inch Horn Spread.

By the Associated Press.  
NAIROBI, Kenya Colony, Africa,  
Feb. 6.—Artemus F. Lienance of  
Oakland, Cal., has shot what is  
thought to be the largest Eland  
Patersonian ever bagged. It was  
described as having a spread of  
33 1/2 inches, beating the previous  
largest one by an inch. The eland  
is a species of antelope. Some va-  
rieties of the animal attain a height  
of six feet and a weight of 1500  
pounds.

Lienance's hunting party in-  
cludes his son, two brothers and a  
hunter named MacDonnell. They  
have been hunting on the Seren-  
getti plains in what was formerly  
German East Africa and have  
killed 19 lions and 13 leopards.

### TUNNEL COLLAPSES; 3 KILLED

Boulder Crushes Roof of Tube Un-  
der Construction Near

Devon, W. Va.

By the Associated Press.  
DEVON, W. Va., Feb. 6.—Three  
men were killed here last  
night when a huge boulder crash-  
ing down a mountainside caused  
the roof of a railroad tunnel to  
collapse. The tunnel is under con-  
struction on the Norfolk & Western  
Railway.

### Woman in Auto Killed by Train

By the Associated Press.  
NASHVILLE, Ill., Feb. 6.—Mrs.  
James T. Jackson, 40 years old, of  
Keenes, Ill., was killed at 5:30 a.  
m. today and her husband seriously  
injured when their automobile  
was struck by an Illinois Central  
freight train at Ashley, Ill. A 10-  
year-old daughter escaped unin-  
jured.

### Lady Heath Passes Second Exam.

By the Associated Press.  
NEW YORK, Feb. 6.—Lady  
Mary Heath, British flyer, took ex-  
amination for a transport license  
for the second time yesterday and  
said that the Department of Com-  
merce examiner at Curtiss Field  
told her she had passed. She also  
took the examination for an en-  
gine and aircraft mechanic's li-  
cense and said she was told she  
had passed that, too. Lady Heath  
took the transport examination last  
week but failed. She protested and  
said that she had failed only be-  
cause she had not answered all the  
questions in the examination com-  
pletely.

### SINUS TROUBLE FOLLOWS THE FLU

Even Common Colds Start  
Trail of "Focal" In-  
fections in Head

In the immediate trail of influenza  
comes an attack upon the delicate  
mucous membranes which line the  
nose. All the symptoms common to  
an acute attack of Sinus Trouble  
follow the "flu," such as a discharge  
of mucus in the nose, inflammation,  
and congestion of the nasal cavities.  
The openings of the sinuses become  
blocked, and you have that stuffy  
condition, with headaches and pain  
over the eyes.

The mucous discharge from the  
nose finds its way into the throat,  
and is absorbed into the system. It's  
the toxins in these vile secretions  
that cause all the trouble that follows  
the "flu," the Grippe and common head-  
colds. Get rid of these foul secretions  
as quickly as they accumulate. Wash  
them away with Sinuseptic. Order a  
glass nasal douche for a few cents at  
any drug store, put in about one tea-  
spoonful of Sinuseptic, fill the rest  
of the glass douche with warm water,  
and apply it to your nose, and you will  
keep the nasal cavities clean and clear  
of the offending secretions that drain  
from the sinuses.

## Civic Leaders Endorse Kiel for Mayor

SIXTEEN years ago, when Henry W. Kiel was elected Mayor of our City, he visioned the tremendous possibilities of St. Louis as the natural metropolis of the Mississippi Valley and the Southwest... the fastest growing section of this country.

Under his leadership, this community progressed as it never had before. There was born a New Spirit in St. Louis, a Spirit of unity, enterprise and progress—from which has resulted a long chain of public improvements and benefits... Yet these achievements are but stepping-stones. We must go farther forward, or go backward... There is much more to be accomplished.

TODAY, St. Louis possesses advantages of resources and of potential prosperity which only need development to bring this community into national leadership. In this prosperity, every citizen of St. Louis will share. And the St. Louis Spirit, pointing to the future, calls again to its proven leader—Henry W. Kiel—"The Man Who Gets Things Done". Therefore, we the undersigned, representing many groups of citizens in St. Louis—firmly believing in our city, and knowing from the past what we may confidently expect from the future, heartily endorse the candidacy of Henry W. Kiel for next Mayor of St. Louis, and urge his election:

## A COMMUNITY SERVICE

We have come to mean to the community the general desire of persons in particular what a bit of courage from a well-meaning to a depraved person — something that will assist him in keeping his head above water, in time enabling

It is our purpose to promote a higher standard of thrift and to lend a helping hand. Thus we are continuously striving to offer the community a real service.

# NEW YORK BONDS (COMPLETE)

By the Associated Press.

NEW YORK, Feb. 6.—Total transactions in bonds of the New York Stock Exchange today amounted to \$9,607,000, previous day's transactions from Jan. 1 to date were \$297,244,000. Total \$306,851,000 for the year and \$15,216,000 two years ago.

Quotations on all Liberty Bonds are in dollars and thirty seconds of a dollar; that is for instance a sale printed \$99.24 means \$99 and 24 thirty seconds of a dollar and not \$99.24.

The following is a complete list of transactions giving sales highest, lowest and closing prices. In bond sales 000 omitted.

## WOMAN'S EXTRADITION SOUGHT FOR MURDER

Mable Brennan, in Minnesota, Charged With Participation in Richland (Mo.) Slaying.

By a Staff Correspondent of the Post-Dispatch.

JEFFERSON CITY, Feb. 6.—Gov. Caulfield yesterday issued a requisition on the Governor of Minnesota for extradition of Mable Brennan from Montevideo, Minn., to Richland, Mo., on a charge of murder. The indictment charges her with participation in the murder of Goldie West in Pulaski County on May 25, 1928.

The mutilated body of Goldie West was found upon the St. Louis & San Francisco Railroad, near Richland, and it was first believed she had been strangled and killed by a train. Examination of the body disclosed bullet holes, and a trail of blood to a nearby road indicated she had been shot and the body then carried to the railroad tracks and placed across a rail. Prosecuting Attorney Thomas A. Shockley of Pulaski County said his inquiry had disclosed that the West woman was shot after she had threatened to tell what she knew concerning a series of robberies in Richland. It had been determined, Shockley said, that the West woman was taken from her home in Richland in an automobile owned by Mable Brennan to a point near where the murder took place.

Robert Henson is awaiting trial in Pulaski County on a charge of complicity in the murder, and officers are seeking a third suspect.

**BITES OFF PART OF TONGUE COASTING IN FOREST PARK**  
John Lamb, 16, hit in Fall When Sled Plunges Off Art Hill Into the Lagoon.

John Lamb, 16-year-old son of Dr. David H. Lamb, 6820 Delmar boulevard, University City, bit off part of his tongue in a coasting accident last night and is in St. Luke's Hospital.

The youth coasted down Art Hill in Forest Park on a sled with Wilson Cartladge, 6241 North Drive, University City, and Joseph McMurray, 6 Radcliffe place, and out onto the frozen lagoon at the

foot of the hill. The sled dropped about three feet from the hill to the ice, the ice broke and one piece of it struck young Lamb in the face.

Bystanders helped the three out of the water, which is about three feet deep, and they were taken to the hospital, where Lamb remained. The other two were sent home after their clothing had dried.

## Cautious Mothers

Careful, Mother! When your baby's fretful, feverish, don't give him something intended for grown-ups! There's no use when you can get Fletcher's Castoria—the pure vegetable, pleasant tasting preparation doctors recommend for babies—which millions of mothers know is safe.

Give Fletcher's Castoria at the first sign something's wrong. See how quickly it will comfort a restless, crying youngster. When Baby has caught cold, it keeps the little bowels from clogging. It quickly relieves colic, gas, diarrhea, constipation, etc., in babies—and older children, too. Keep on with it until your child is grown. Bigger appetite, better digestion, more perfect elimination will surely reward this sensible care. Be sure you get genuine Castoria. Look for the Fletcher signature on the wrapper.

# The Princess Line, With Variations, Is Used by Madame Jenny

Greek Standards of Beauty Are Approached by the Grace of Present Fashions—Long Dipping Points Likely to Continue as Feature of Evening Gowns.

BY MADAME JENNY.

MOST women think of fashion simply as an excuse for ordering new frocks three or four times a year. This is very human and natural. Yet, anyone who gives the question of clothes really careful study, apart from the commercial point of view, will find that dress design is an art. Not only that, but it is a very living and vital art. Much more so when one reviews its present state and compares it with the sterile period which inevitably followed the war. We may not indulge in all the caprices that formed part of fashion in those almost-forgotten days of peace and leisure when life was easy. Fashion, like every other entity, adapts itself to conditions and mode of life. This is a matter of common sense. What would be the use of designing clothes that might in themselves be beautiful if they were unsuitable to the life of modern women?

But though dress has become simplified it is now intensely varied. Where at one time there was one definite style, that was the fashion and to wear anything else was to be guilty of eccentricity, now there are as many subtle differences as there are different varieties of feminine beauty. Women of all ages and all types can find dresses to suit their physique and individuality—dresses of distinction and character—and still be in the height of fashion without blindly copying one particular model. That is why the general standard of dressing has so much improved. When the straight chemise dress was almost the only dress many women seemed to be shockingly badly dressed because the chemise dress did not suit their type. Now that styles have become varied and feminine women are encouraged to develop any natural lines and judgment they may possess and the advice of a clever dressmaker does the rest.

At this time of year perhaps attention is most concentrated on the evening gown. We are still in the midst of balls, official receptions, opera and there is the season of Cannes, Monte Carlo and Palm Beach ahead with its endless opportunities for displaying lovely gowns at the casinos and restaurants of the haunts of sunshine.

Evening dress is always one of the most interesting branches of fashion because it gives the designer scope for developing new ideas, evolving new variations on themes that have gone before, and, above all, of producing gowns that show off the real beauty of the human form as no other type of dress can do.

The present line is one that approaches very closely the Greek standard of beauty. There is a natural flow of grace in its development. This is, where the serious student of the supposedly frivolous subject of fashion may find evidence of an intelligent appreciation of proportions and a gradual tendency to accentuate what is attractive.

The long dipping points that give such a graceful lift to a gown have been with us for some time. They no longer have the snap of novelty. But they are so becoming, give such a charming effect in movement, that I am not only still using them in many of my evening models, but I am accentuating them by the addition of a long flowing stole scarf that often enfolds the gown. Not only the graceful length from the waist at the back, but a parallel sweep from the shoulders to the hem. This accentuates the slender effect and also the sense of movement. There was a time when dresses were designed that looked charming as long as the wearer stood still, and their very slenderness made them less attractive directly she walked or danced.

THE age we live in is essentially one of movement. That is why the present line gives almost the impression of flight. Speaking of evolution of ideas, you remember that three seasons ago I showed a few dresses on strictly princess lines. That was a sensation. Now I have many models that are variations on the princess line theme. Some have a flared skirt with a long pointed point at the side on the lines of the model that is illustrated on this page. Some have slightly flared flounces. A white satin model that has had great success with many of my smartest clients has curved flounces in front of the skirt and a wing drapey at the back that slants in a diagonal from the left shoulder to the right side of the hem, the wing end hanging in a point to the ankles.

All these are, strictly speaking, princess gowns, yet no two of them are alike. Each is made to suit a different type of woman. There are some that give slim lines to those who are plumper than they really like. Others have the diaphanous fullness that is so becoming to the extreme slenderness of youth. They all have that something that is essential to the graceful hang of a gown. I think nearly all women now realize that nothing accentuates stoutness more than to have clothes made too tight. Dresses that hang look bet-

What could be more graceful than this Jenny evening gown of black crepe satin with its flowing pointed drapey to one side of the back and a long floating scarf of white satin? Note the original shoulder strap effect.

Above—For this evening wrap Madame Jenny uses white moire velvet and gives it flowing cuffs of white georgette. The shawl collar is made of maroon.

Above—Madame Jenny has given this morning tailor made model in heavy blue. The hip length coat is of lagoon trimmed with suede cloth, of which the skirt is also made.

A chic little sports dress has the orange embroidered with a white arabic on scarlet wool jersey. It is a model that is very becoming and is popular with the younger set.

## Well-Chosen Wallpaper Corrects Room Faults

WALLPAPER is valuable from a structural standpoint as well as from a decorative one, for its color and design, properly used, can do a great deal to remedy structural faults, says the February American Home. Rooms may be made to seem higher, more spacious and brighter than they actually are if the right paper is used on their walls.

When additional height is desired in low rooms wall paper with stripes of rising lines in the pattern should be used. The paper should run directly to the ceiling line, and the ceiling should be papered with a plain color close to the shade of the background of the walls, if it is not too dark, so that the change from wall to ceiling will not be so marked.

In small rooms most people think it necessary to select tiny patterns, but this is not always wise. Small close patterns with almost no background, shut in a little room, making it seem even smaller than it is. A good sized pattern in light clear colors, with plenty of light background showing will do much to make a tiny room seem larger. Small scenes with perspective in the drawing are an ideal selection.

## Simple Science for Everybody

By Colin G. Welles, Ph. D.

### IT PAYS TO WORK

UNDER the stern laws of nature it really does pay to work. For nature has no use for laziness, and the penalty for the sluggard is death.

This is true of parts of the bodies of animals, as well as of the whole animal. When a creature ceases to use his eyes he will soon become blind. If he no longer needs his toes, they become stumpy and weak, and soon he has no toes. And so of everything.

In our own human bodies are parts of organs which are only remnants of what were once useful muscles and glands. We can no longer wiggle our ears, because the muscles for wiggling them have not been used by our ancestors these thousand centuries. But the old weak, useless muscles are still there to prove that once our human beings could wiggle a very lively ear. The appendix, which has become so popular recently, is probably what remains of an extra stomach that may have helped our most ancient ancestors to digest food.

Not only among human beings do unused muscles and organs grow feeble and useless. Chickens have been kept in barnyards so long that they have almost lost the power of flying. They can only stay in the air long enough to fly before an approaching automobile, or perhaps to fly to a roost. But once upon a time chickens flew as well as other birds. Their wings have grown feeble only because they have not been used.

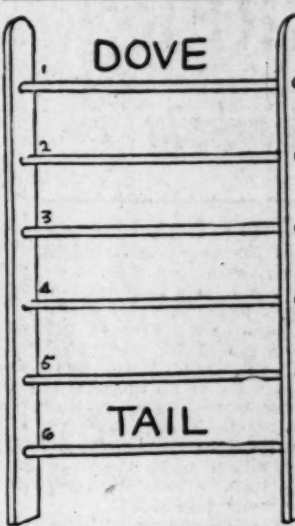

The silk moth, too, has lost the power of flight because of having been kept "tame" and within reach for so long a time. The frog has the stub of a tail which is probably the last sign of a tail that once was considerably more glorious, and there are whales which have lost their teeth because of their mushy diets. The ostrich has lost the two toes by which he used to clutch at branches in the days when he still could fly, and his wings are quite useless now from too much running and no flying.

Of course, the law works both ways. Those parts of our bodies, or any other creature's, which are much used are strengthened thereby. The tennis player has a strong right arm, the farmer hardy hands, meat-eating dogs have fine sharp teeth, and the ostrich can boast of the finest legs in the world for running.

So, biologically speaking, it pays to work.

## LADDERGRAM

Registered U. S. Patent Office  
Climb Down!

It's easy to make Laddergrams. Climb Down! If you climb down a rung at a time changing a single letter only in each downward step without transposing the remaining letters. Avoid words that are obsolete, hyphenated or of foreign dialect and watch for an answer tomorrow.

**Solution to Last Pans—1, Rust; 2, Runt; 3, Runs; 4, Puns; 5, Pans.**

(Copyright, 1929.)

### When Traveling

If the silk dress is mussed from packing, hang it over a bathtub of hot water for an hour or so and it will be quite freshened without sending it away to be pressed.

Waterproof paper linings, having extensions for handles, have been invented for garbage pails, being thrown away with their contents.

### A Protection

If you telephone for your meat as a rule, it is wise to weigh it every so often and see if you and your butcher tally. If you do not, a reprimand will keep the butcher on his guard.

## Factory Girls Form A "Junior League"

FACORY girls of Pittsburgh, Pa., are being organized into clubs to do the same type of work that junior members of the General Federation of Women's Clubs are doing.

The juniors form a young, brisk, short-skirted auxiliary to the older club women and are doing much in the way of relief work. Factory girls are showing much interest in the club work under the guidance of some slim young daughter of a prominent club woman. Their meetings are held in the evening due to factory hours.

The work of the juniors consists in supporting scholarships and libraries, in helping their seniors build club houses and in contributing to the relief of miners and their families.

## Woman Police Judge Sits for Tenth Year

A WOMAN'S wisdom and sense of fairness balance the scales of justice in Boulder, Colo., police court.

After a decade on the bench, Judge Linda M. Lee counts among her friends the persons who have stood before her charged with violation of city ordinances.

She always shows mercy when she is convinced of an offender's sincere wish to be guided by a mistake. A barber who entered a plea of guilty after his arrest for violating a traffic ordinance was let off without a fine when he promised to drive his motor car more carefully in the future. In appreciation of judicial clemency, he offered to bob the judge's hair, and she accepted the offer.

## EMERGENCY FUNDS up to \$300

Many of us find ourselves short of cash, at times,—and frequently with obligations that demand immediate attention. A hundred and one emergencies arise which make additional funds absolutely necessary. At such times it is wise to borrow what you need—rid yourself of financial worry—and repay in small monthly payments.

## Our New Rate NEARLY 1/3 LOWER

Under our reduced rate, loans payable in twenty equal monthly payments cost as follows:		
\$ 50	Average Monthly Cost	\$0.66
\$100	Average Monthly Cost	\$1.32
\$200	Average Monthly Cost	\$2.63
\$300	Average Monthly Cost	\$3.94

Loans may be paid in full at any time. You pay ONLY for actual time you keep the money.

## How We Make Loans

We make loans up to \$300 on household goods, to men and their wives for domestic use. We do not require outside signers—signature of husband and wife all that is necessary. Employers, relatives, friends or tradespeople are not notified—no one need know.

YOU ONE A DOLLAR TO  
THE DOORMAN, HE HAD TO  
PAY MY TAXI.  
I DIDN'T  
HAVE A  
CENT.

WHAT DID  
YOU DO WITH  
ALL THAT  
MONEY I GAVE  
YOU THIS MORNING?

I WENT IN A BEAUTY-  
PARLOR TO  
BUY A LIPSTICK

THAT DOESN'T  
COST SO MUCH  
DOES IT?

NO BUT AS LONG AS I WAS  
THERE I DECIDED TO HAVE  
A MANICURE AND  
A PEDICURE AND  
AS LONG AS I WAS  
THERE -

I DECIDED TO HAVE  
MY HAIR WASHED,  
TRIMMED AND TOUCHED  
UP AND AS LONG AS  
I WAS THERE -

I DECIDED TO HAVE A  
FACIAL MASSAGE  
AND MY EYE BROWS  
SHAPED AND AS LONG  
AS I WAS THERE -

I DECIDED TO HAVE A REDUCING  
TREATMENT AND A  
BODY MASSAGE  
THEN AS LONG  
AS I WAS THERE  
I DECIDED

SHUT UP!  
THAT'S  
ENOUGH!

THE TERRIBLE TEMPERED MR. BANG WAS PRETTY SORE  
THE FIRST TIME ABE POTTER WENT OUT AND LEFT THE  
WAITING ROOM DOOR OPEN, BUT WHEN HE DID  
IT THE SECOND TIME....!

"HE'S JUST  
COMING BACK  
TO CLOSE  
THE DOOR!"

Upturn in Prices Is Follow-  
ed by Second Wave of  
Selling in the Late After-  
noon—Sales Over 5,000,000.

NEW YORK, Feb. 7.—A drastic reaction in stock prices, which carried many of the leading issues down to 35 points was the result of the Federal Reserve Board warning against the excessive use of credit for speculative purposes. Prices broke 2 to 35 points at the opening, falling around mid-day and then turned heavy again in the last hour when U. S. Steel common, Union Pacific and several of the other recent leaders recorded their lowest prices of the day. Radio closed at the day's low, while Johns-Manville dropped 22 points, Adams Express 19 and Curtiss Aeroplane, Motor Products, Union Carbide, Westinghouse Electric and Union Pacific 19 to 12 points with only slight recoveries from the low levels. The average of 59 industrials fell 7.4 points, 29 rails dropped 2.4 points and 29 utilities declined 6.6 points. Governors of the New York Stock Exchange voted today to close the Exchange Saturday, presumably to give member firms an opportunity to catch up with a vast accumulation of work.

Total stock sales today were 5,262,294 shares, or well below the record high level of 6,342,566 shares last Nov. 22. Wall Street has seldom awaited a market opening with more interest, not so much to see what the market would do as it was inevitable, but to see the extent of the decline. The first price which appeared on the tape showed losses of only fractions of 2 points, but then came a block of 29,000 shares of U. S. Steel common at a mark-down of 6 points and a break of 17 points in General Electric on the first sale.

Other high-priced industrials were then thrown overboard. Wright Aeronautical dropping 14 points, Case Threading Machine 13, Dupont 12, Westinghouse Electric 11 and Allied Chemical, Curtiss, U. S. Industrial Alcohol and National Cash Register falling 10 to 19 points. Rails yielded, with the industrials, Canadian Pacific dropping 9 points and Union Pacific 8.

Buy for "Quick Turn." It was quite evident that much of the opening selling represented liquidation by frightened small speculators so that when the renewal rate for call money was marked down to 6 per cent, several large traders stepped into the market and bought stocks "for a quick turn."

With an abundant supply of speculative credit, furnished largely by private corporations, individuals and banks outside the control of the Federal Reserve System, furnishing the background for the recent advance in stock prices, it was natural that the overnight developments which threatened a curtailment of brokers' loans would result in the wholesale liquidation of stocks. Previous warnings against the excessive use of speculative credit have been generally disregarded but the possibility of a rise in Federal Reserve rediscount rates, coupled with the higher bank or England rate which will check the flow of gold from London is
